

Honeywell Access Systems

YOUR PARTNER OF CHOICE

Product Catalog 2008-2009
North America Edition

Honeywell

Welcome

Dear Valued Customer,

Honeywell Access Systems is proud to present our 2008-2009 Product Catalog. We continue to invest in research and development to bring you the best in innovative and integrated technologies. This catalog includes an extraordinary offering of proven products and brand new solutions that you can only get from Honeywell, such as:

- The newest member of the NetAXS™ family, the NetAXS Retrofit Board is a one-of-a-kind access control solution that provides an easy way for users to migrate their existing N-1000 access control panel for extended functionality without having to rewire or reprogram.
- Designed with the central station in mind, Honeywell's WIN-PAK® PRO Central Station and Manitou software from Bold Technologies provides a unique combination of value-added services and remote management that can't be duplicated in the industry. Aimed at generating additional recurring monthly revenue for our dealers and providing remote managed services for end users, WIN-PAK PRO Central Station and Manitou truly provides an unmatched remote managed access control option.
- WIN-PAK SE combines access control, alarm intrusion and digital video in a single integrated user interface. By bringing together WIN-PAK SE with VISTA intrusion control panels, Rapid Eye™ Multi-Media and Fusion Series DVRs, Honeywell integrates products you already know and trust.
- Our popular LobbyWorks™ Visitor Management System offers a new floorstanding kiosk that lets you tailor the visitor registration process to meet your needs. The self-registration station is perfect for high traffic or unsupervised areas of a lobby and uses advanced technology to coach visitors through a registration process that's quick and simple.

In addition to our full listing of access control products, you'll find sections dedicated to photo-id badging systems, multi-technology readers, credentials and other peripherals to fit a wide range of requirements for all your installations. We've also included resources such as compatibility charts and configuration drawings that make installing and configuring a Honeywell access system easy.

At Honeywell, we know that success is the result of flawlessly executing commitments and delivering on promises to our customers. Not only are we dedicated to listening to you, but we are devoted to investing in innovations that help grow your business. Then we take it a step further and provide practical tools such as this catalog that contribute to your success.

Sincerely,

John Lorenty
General Manager
Honeywell Systems Group

Partner of Choice

Commitment

Honeywell understands that each industry and each business have unique security requirements that a standard off-the-shelf solution cannot meet. We want to be your trusted partner, and that's why we offer a wide range of products and services that can be customized to any location, facility or business. Our commitment to our customers goes beyond our products—it's reflected in every step of the installation process. We support all of our products and services with superior technical support to help our customers keep their security systems running smoothly. From pre-sales, through application engineering, to customer support, we want to earn the privilege of being your Partner of Choice.

Innovation

We invest over \$50 million a year in research and development to bring you innovative new security products. We leverage the

best technologies globally at our engineering "centers of excellence" in the U.S., China, India, and Canada. These teams bring you new integrated access control solutions such as

WIN-PAK® SE with VISTA and Rapid Eye™, NetAXS™ hybrid Web-based access control, OmniAssure™ readers, WIN-PAK PRO Central Station, and LobbyWorks™ Visitor Management System. These, as well as our other new products, are the result of our "Voice of the Customer" process—we develop cutting edge solutions with you in mind.

Support and the Best People

We know that when your customers call you, you need a quick and expert response. That's why we staff our customer and tech support centers with knowledgeable people with years of

security experience. We also provide hands-on training at ADI branches, long-distance training through Web seminars and give you access to robust online tech libraries. We can help you meet the unique needs of customers in specific industries by providing

relevant market information, equipping you with marketing tools such as brochures and other collateral, and helping you provide a tailor-made solution for your customer. At the heart of our business are our people. From our salespeople to the tech support group, all of our employees make up an unbeatable team with decades of experience in security that understands the industry and your business. Honeywell hires the best talent because you deserve the best support.

Honeywell

When you partner with Honeywell, you benefit from the power of a global \$37 billion, Fortune 50 company with more than 120,000 employees. With a leading presence in a variety of industries such as aerospace, automation controls, specialty chemicals and transportation, we have the solutions, the technology and the resources to help you succeed. Honeywell is unwavering in our commitment to deliver the innovations that drive your growth. As a Six Sigma trained and focused organization, we strive for operational excellence in everything we do. We believe that delivering the highest quality solutions and doing the best job for our customers every day is what makes the difference. We want to partner with you for your success.

Support Services

Customer and Technical Support

Our team of experienced, dedicated customer and technical support specialists are always at your service. Whether your question deals with technology, product selection and compatibility or troubleshooting, they will work diligently to find you the solution.

Honeywell Access Systems also offers a wide variety of services that help dealers grow their profitability. From on-site support, training and database services to our Web-based Customer Information Management (CIM) system, Honeywell delivers a broad spectrum of programs that offer unrivaled dealer support and investment protection.

Customer Information Management (CIM) System

Honeywell Access Systems' Customer Information Management (CIM) system is an innovative eBusiness solution that empowers users to optimize the profitability and productivity of their organizations through anytime online access to critical information and interactive management tools. The CIM can be accessed via the Internet at www.hascim.com.

To obtain your logon credential, please contact your Regional Sales Manager or Inside Sales Representative. They are ready to provide you with the means to access a wealth of information!

ADI Ordering Information

Honeywell values ADI as a partner and understands that many of our customers purchase through ADI; therefore, we have designed this catalog to make it easy for dealers to find our products and place quick and accurate sales orders.

This product catalog features an easy-to-use cross reference guide for ordering Honeywell products through ADI.

Use this information to quickly find a cross-reference to an ADI part number or have ADI scan the barcode to order the correct product.

Software & Systems

More and more, customer requirements cannot be met with one solution—rather, they need a holistic approach that integrates different elements to suit their needs. In the case of access control, the trend toward digital networking solutions has made it easier for management to bring together the worlds of access control and video surveillance into a single integrated system.

THIS SECTION INCLUDES:

WIN-PAK® SE

WIN-PAK® SE SYSTEM KITS

WIN-PAK® SE INTEGRATION KITS

Software & Systems

Honeywell's WIN-PAK SE works with our NetAXS, NS2+, N-1000 and PW2000 access controllers, Rapid Eye™ and Fusion DVRs, and VISTA 128FBP and VISTA 250FBP intrusion panels to let you quickly and easily add video surveillance and intrusion every time you install an access control system. The result is a solution powerful enough to handle all of your customer's integrated security requirements from a single user interface. The unique combination of intrusion, video and access control saves time and money by reducing training and labor.

Benefits:

- Save time and money by managing three separate systems with one easy-to-use software interface.
- Improve the level of security by eliminating user code sharing. Increase security by using a unique card to disarm a system and grant access at the door.
- WIN-PAK SE software interface allows users to retrieve and play back video associated with intrusion and access control.
- Automated reporting allows users to send up-to-date reports on intrusion and access events hourly, daily, weekly or monthly.
- Reduce employee down-time by requiring training on only one system.
- Align WIN-PAK SE with VISTA integration with existing system needs for an added level of security.
- Expand to meet current and future needs. Start with access and add video or intrusion later as requirements change.

WIN-PAK® SE

WIN-PAK® SE access control software is used to program, operate and report access control events. Standard features include badging, configuration wizards, digital video integration, prioritized alarm events, floorplans, pop-up video and alarms. Supported access control panels are the NS2+, N-1000, NetAXS and PW-2000. Supported digital video systems are Rapid Eye™, Rapid Eye LT and Fusion™. Multiple workstations are supported as concurrent users and are software activated (no dongles). Supported operating systems are: Windows VISTA Business*, Windows® 2003 Server, Windows XP Professional SP2, Windows 2000 Server SP4 and Windows 2000 Professional SP4.

Features:

- Integrated DVR Support
- Photo ID Badging
- Scheduled Reports
- Installation Wizard
- Card Frequency Report
- E-mail Reports / Events
- Domain or Workgroup Network Support
- Up to 5 Concurrent Users

WPSE

WIN-PAK SE Access Control Software

Standalone - Single user version of WIN-PAK SE.

WPSEU5

WIN-PAK SE Software, 5-user

Provides support of up to 5 concurrent WIN-PAK SE workstations.

WPSEV

WIN-PAK SE single user with VISTA integration

Standalone - Single user version of WIN-PAK SE with VISTA integration.

WPSEU5V

WIN-PAK SE VISTA 5-user with VISTA integration

Provides support of up to 5 concurrent WIN-PAK SE workstations with VISTA integration.

Notes

Professional Systems

With powerful system software and reliable, intelligent controllers, Honeywell's state-of-the-art technology is designed to meet the complex and ever-evolving security requirements of businesses today. We offer scalable access control solutions for enterprise level management systems. Solutions such as integrated digital video monitoring, Web-based management tools and central station reporting that increases recurring monthly revenues while decreasing installation and service costs. Honeywell offers you unique products and services that enable you to differentiate yourself from the competition – winning more business and developing stronger customer relationships.

THIS SECTION INCLUDES:

WIN-PAK® PE

WIN-PAK® PRO Central Station

PRO2200 Controllers

Professional Systems products are available only to certified dealers who have met Honeywell dealer requirements and completed the required technical training. Contact Honeywell Sales Support or your Regional Sales Manager for more information about becoming a certified dealer.

Professional Systems

WIN-PAK® PE offers enterprise level access control capabilities with full scale system management of single or multiple locations. With true digital video and intrusion integration options, it is an easy choice for enterprise applications. PRO2200 is a highly evolved modular controller with advanced features such as triggers and procedures.

WIN-PAK PRO Central Station access control provides a cost effective and easy-to-manage security solution for businesses, while providing security dealers with multiple recurring revenue streams.

Benefits:

- Enhanced digital video integration creates additional add-on opportunities.
- Manage multiple locations and accounts from the software; ideal for property managers, business or university campuses and multi-location corporations.
- Customized reporting provides greater management capability to the system. In addition, scheduling reports to print or e-mail meets customer demand.
- Advanced card management provides greater control and security for customers.

WIN-PAK PRO Central Station:

- Increase revenue by providing value added services such as digital video monitoring, Web browser user interface, e-mail event and report notification, scheduled reporting, video verification and photo-ID badging.
- Reduce installation and service costs. Without on-site PC and software installation, dealers can manage and repair systems remotely.

WIN-PAK® PE

WIN-PAK® PE access control software is used to program and operate access control systems and report events. Supported access control panels are the NetAXS, NS2+, N-1000, PW-2000 and PRO2200. Supported digital video systems are Rapid Eye™ and Fusion DVRs, and VISTA 128FBP and VISTA 250FBP intrusion panels. Supported operating systems are Windows® Vista Business* Windows 2003 Server, Windows XP Professional SP2, Windows 2000 Server SP4 and Windows 2000 Professional SP4.*

Features:

- Unrestricted Number of Users
- Multiple Accounts are Supported
- Installation Wizard
- Integrated DVR Support

WIN-PAK® PRO CENTRAL STATION

Sustaining growth and staying ahead of the competition are the greatest challenges facing security dealers today. Honeywell's new WIN-PAK® PRO Central Station access control product provides a cost effective and easy-to-manage security solution for businesses, while providing security dealers with multiple recurring revenue streams. WIN-PAK PRO Central Station offers dealers the opportunity to take control of their customer's installations and provide worry-free access control and value added services.

- Win More Business
- Keep Customers Longer
- Increase Profitability
- Reduce Installation Costs
- Reduce Service Costs

PRO2200

The PRO2200 Intelligent Control Module (PRO22IC) is an advanced access control panel capable of providing solutions for large applications. The PRO22IC provides power and flexibility with its 32-bit CPU architecture, optional TCP/IP protocol support, flash memory for firmware and large local card holder database. The PRO22IC supports any combination of up to 8 I/O or reader boards to monitor alarm input points, relay output points and access control reader interface points. By offering a modular design, the system can be tailored to meet a wide range of applications while optimizing cost and mounting space. The PRO22IC is designed with various mounting options available. Units can be mounted in a high-density configuration (PRO22ENC1, PRO22ENC2 and PRO22ENC5) when space is limited or in a tile mount configuration (PRO22ENC3).

PRO22E1EN

PRO2200 Intelligent Controller Kit with TCP/IP Communication

This kit contains the intelligent controller (PRO22IC), a high-density wall mount enclosure (PRO22ENC1), the high-density power supply (PRO22E1PS) and 7AH battery (PRO22BAT1) capable of supplying primary and backup power for up to 9 PRO2200 modules and Ethernet device (PRO22EN) for communication via TCP/IP to the host.

ADI Ordering Information

NC-PRO22E1EN

ALSO AVAILABLE:

PRO22E1IC

PRO2200 Intelligent Controller Kit with RS485 Communication

Same as PRO22E1EN, but utilizes an RS232 to RS485 converter in place of the PRO22EN for communication to the host.

NC-PRO22E1IC

PRO22E1D2

PRO2200 2 Door TCP/IP Kit

Adds one dual reader board (PRO22R2) to the PRO22E1EN.

NC-PRO22E1D2

PRO22E1D4

PRO2200 4 Door TCP/IP Kit

Adds two dual reader boards (PRO22R2) to the PRO22E1EN.

NC-PRO22E1D4

PRO22E1D8

PRO2200 8 Door TCP/IP Kit

Adds four dual reader boards (PRO22R2) to the PRO22E1EN.

NC-PRO22E1D8

ADI Ordering Information

PRO22IC

PRO2200 Intelligent Controller

The PRO22IC supports any combination of up to 8 input/output or reader boards to monitor alarm input points, relay output points and access control reader interface points. The standard PRO22IC accommodates a card database of 20,000 cards, and a standard transaction buffer of 5,000 transactions. Units can be mounted in a high-density configuration (PRO22ENC1, PRO22ENC2 and PRO22ENC5) when space is limited, or in a tile-mount configuration (PRO22ENC3). Board dimensions: 5.5" H x 9.0" W x 1.0" D (228.6 mm H x 139.7 mm W x 25.4 mm D). Power requirements: 10-16 VDC @ 400 mA.

PRO22R2

PRO2200 Two Reader Board

PRO2200 dual reader board supports two TTL (Wiegand or clock and data) readers and supplies two Form-C contacts, 5 A @ 28 VDC (resistive) for controlling locks and four Form-C, 2 A @ 28 VDC (resistive) for controller auxiliary devices. Provides eight supervised inputs and two unsupervised dedicated inputs. Dimensions: 5.5" H x 9.0" W x 1.0" D (139.7 mm H x 228.6 mm W x 25.4 mm D). Power requirements: 12 VDC @ 400 mA.

PRO22R1

PRO2200 Single Reader Board

PRO2200 single reader board supports one TTL (Wiegand or clock and data) reader and supplies one Form-C contact, 5 A @ 28 VDC (resistive) for controlling locks and one 1 A @ 28 VDC for controlling other devices along with two supervised inputs for door contact and REX device. Use PRO22ENC4 enclosure. Board dimensions: 2.75" H x 4.25" W x 1.4" D (108 mm H x 70 mm W x 36 mm D). Power requirements: 12 VDC 125 mA (175 mA max available for reader power).

PRO22IN

PRO2200 16 Input Module

PRO2200 input module with 12 general purpose inputs with programmable circuit type (16 are available when using PRO22ENC3 tile-mounted enclosure), two dedicated alarm inputs for tamper detection and power loss (tile-mounted only), and two general purpose, Form-C, 2 A @ 30 VDC relays (only one available when using PRO22ENC1, PRO22ENC2 and PRO22ENC5). Dimensions: 5.5" H x 9.0" W x 1.0" D (139.7 mm H x 228.6 mm W x 25.4 mm D). Power requirements: 12 VDC @ 350 mA.

PRO22OUT

PRO2200 16 Output Module

PRO2200 output module with 12 general purpose output relays, Form-C, 2 A @ 30 VDC (16 are available when using PRO22ENC3 tile-mounted enclosure) and two dedicated alarm inputs for tamper detection and power-loss (tile-mounted only). Dimensions: 5.5" H x 9.0" W x 1.0" D (139.7 mm H x 228.6 mm W x 25.4 mm D). Power requirements: 12 VDC @ 400 mA.

Professional Systems products are available only to certified dealers who have met Honeywell dealer requirements and completed the required technical training. Contact Honeywell Sales Support or your Regional Sales Manager for more information about becoming a certified dealer.

PRO22ENC1

PRO2200 High Density Enclosure Only

The PRO22ENC1 is a high-density wall mount enclosure capable of housing up to nine PRO2200 modules. Power supply (PRO22E1PS) and battery (PRO22BAT1) sold separately. Dimensions: 13.9" H x 17" W x 9" D (35.3 cm H x 43.2 cm W x 22.9 cm D).

ADI Ordering Information

PRO22ENC2

PRO2200 Rack Mount Enclosure Only

The PRO22ENC2 is a high-density 19" rack mount enclosure capable of housing up to nine PRO2200 modules. Power supply (PRO22E1PS) and battery (PRO22BAT1) sold separately. Dimensions: 13.9" H x 18.9" W x 9" D (35.3 cm H x 48.0 cm W x 22.9 cm D).

PRO22ENC3

PRO2200 Tile Mount Remote Enclosure

PRO2200 tile mount enclosure capable of housing and supplying battery backed power for two PRO2200 series modules. Contains 2.4 A power supply and 4 AH sealed lead acid battery. Dimensions: 14" H x 16" W x 4" D (35.6 cm H x 40.7 cm W x 10.2 cm D).

PRO22ENC4

PRO22R1 Single Reader Board Enclosure

Single reader board enclosure designed specifically for the PRO22R1. Includes power supply and battery. Dimensions: 8.37" H x 7.63" W x 7.63" D (21.3 cm H x 19.4 cm W x 19.4 cm D).

PRO22ENC5

PRO2200 Card Rack Only, No Enclosure

Rack cage only for custom enclosures. Capacity: nine PRO2200 modules (excluding PRO22R1). Power supply (PRO22E1PS) and battery (PRO22BAT1) not included. Dimensions: 9.35" H x 16.85" W x 5.6" D (23.8 cm H x 42.8 cm W x 14.2 cm D).

PRO2200 COMMUNICATIONS

PRO22EN

PRO2200 Ethernet Daughter Board

The PRO22EN offers TCP/IP (10Base-T) interface that mounts directly on the PRO22IC and requires no external devices or wiring. Power is supplied by the PRO22IC. Simply use the standard RJ45 jack to connect via CAT5 to the existing LAN/WAN network. Transmit, receive, and good link diagnostic TCP/IP status indicators. Dimensions: 1.574" H x 1.929" W x 1" D (40.0 mm H x 49.0 mm W x 25.4 mm D).

PRO22CVT1

RS232-RS485 Data Converter

The PRO22CVT1 is an RS485 interface located between the computer and the PRO22IC. The device converts the RS232 data coming from the serial port on the PC into RS485 data.

ADI Ordering Information

PRO22M4

PRO2200 4 MB Memory Expansion

The memory expansion module (PRO22M4) mounts directly on the PRO22IC and allows for a card database of 50,000 cards and a transaction buffer capable of storing 35,000 transactions.

* When using WIN-PAK PE with multiple access levels, the card data base maximum is 10,000.

PRO22E1PS

4 A Rack Mounted Power Supply with Battery Backup

12 VDC @ 4 A power supply with battery charger for use in PRO22ENC1 or PRO22ENC2 enclosures. This power supply is auto-switching and can accept 85 VAC to 230 VAC @ 50/60 Hz. Battery (PRO22BAT1) sold separately.

PRO22BAT1

PRO2200 12 V, 7 A Backup Battery

12 V, 7 AH sealed lead acid battery for use with the PRO22E1PS power supply.

PRO22DCC

PRO2200 Daisy Chain Cable

The PRO22DCC daisy chain cable is a prewired cable harness used to quickly route power and RS485 communications across up to nine PRO2200 series panels located in the PRO22ENC1 or PRO22ENC2 enclosure.

Professional Systems products are available only to certified dealers who have met Honeywell dealer requirements and completed the required technical training. Contact Honeywell Sales Support or your Regional Sales Manager for more information about becoming a certified dealer.

Web-based Access Control

For customers who are looking to take advantage of Web-based access control, Honeywell's NetAXS™ offers a solution that helps reduce time spent on installation, support and training. Web-based access control is the ideal solution for customers who want to manage their own access control solution but want to avoid the issues associated with managing operating systems, software upgrades, and compatibility issues. Now, customers can access and manage their system from any Internet connection—anywhere. Using the Web-based access control solutions provided by NetAXS, customers can start with the Web and grow as their needs change. Then, if their needs grow beyond the capability of the Web system, they can migrate to the WIN-PAK platform and expand their system further.

THIS SECTION INCLUDES:

NetAXS™ Standalone Kits

NetAXS™ Control Panels

Web-based Access Control

Honeywell's NetAXS™ is the ideal solution for users who are new to access control. Simple programming and menu options are based on typical Web usability which helps reduce the overall learning curve. NetAXS is IT friendly and has built-in Ethernet support that is encrypted and easy to manage.

Benefits:

- Intuitive interface provided by simple web pages allows fast programming and easy usability.
- Integrated enclosure keeps installation costs to a minimum.
- Pre-wired power and connectors simplify installation so you can hang it up, plug it in, and go. No other solution makes installation easier!
- Because there is no PC software to purchase or install, equipment costs are reduced.
- No operating systems, virus checking, or hard drive issues.
- Check your system or run reports from any web browser.

NX4OP30S

NX4 with Small Enclosure - Standalone Web-based Access 4 Door Kit with OP30HONE

NetAXS Standalone Web Controller Kit with 4 OP30HONE Proximity Readers, small enclosure, NX4 control panel, transformer and 12 VDC, 7 A backup battery.

ADI Ordering Information

NC-NX4OP30S

NX4OP30L

NX4 with Large Enclosure - Standalone Web-based Access 4 Door Kit with OP30HONE

NetAXS Standalone Web Controller Kit with 4 OP30HONE Proximity Readers, large enclosure, NX4 control panel, 8 output fused relay board, 24 VDC, 6 A power supply and (2) 12 VDC, 7 A backup batteries.

NetAXS 16 Output Relay Board with 16 general purpose output relays, Form-C, 2 A @ 30 VDC and two dedicated alarm inputs for tamper detection and power loss. Up to 4 NX4OUT output boards per NetAXS control panel. Dimensions: 5.5" H x 9.0" W x 1.0" D (139.7 mm H x 228.6 mm W x 25.4 mm D). Power requirements: 12 VDC @ 400 mA. Note: Requires separate enclosure and power supply.

NC-NX4IN

NX4IN

NetAXS 32 Input Board

NX4IN input module with 32 general purpose inputs with programmable circuit types. Up to 2 NX4IN input panels per NetAXS control panel. Dimensions: 5.5" H x 9.0" W x 1.0" D (139.7 mm H x 228.6 mm W x 25.4 mm D). Power requirements: 12 VDC @ 350 mA. Note: Requires separate enclosure and power supply.

NC-712BNP

712BNP

12V, 7AH Backup Battery

12V battery for the NetAXS and PRO22 panels.

Entry Level Solutions

For small to medium-sized applications Honeywell offers a turnkey access control solution in an easy-to-install package that does not compromise on desirable features such as video integration and networking. And should the need arise, there is an easy upgrade path to a larger scale Honeywell solution.

THIS SECTION INCLUDES:

NStar

NS2

Entry Level Solutions

NStar is a cost-effective solution for entry level applications with the ability to seamlessly expand and adapt to future growth needs. The solution is composed of the NS2 control panel and NStar access control software. It allows you to start small and easily upgrade your access control system as your security requirements evolve.

Benefits:

- State-of-the-art technology, processing power and speed uncommon in an entry-level product.
- Unprecedented scalability allowing for easy system expansions or future technology updates via a unique XPort expansion port.
- Comprehensive software with fast installation, simple operation via user-defined control and viewing of system status, and an event viewer for real-time observation of system activities.
- Available option package including video badging, real-time alarm pop-up, digital video integration, intrusion integration and networking is available to meet future needs.

NSSKR

NStar Access Starter Kit with OmniProx Readers

The NSSKR is an NStar starter kit with readers. The kit contains NStar software, NS2 controller (NS2), two HID compatible OmniProx readers (OP10HONE), locking enclosure (ENC10), accessory kit (NS2ACC), 50' communications cable (CBL50), transformer (X-4) and two suppressor kits (S-4). Optional 485 or onboard TCP/IP available. Dimensions: 14.5" H x 12.5" W x 3.5" D (36.83 cm H x 31.75 cm W x 8.89 cm D).

ADI Ordering Information

ALSO AVAILABLE:

NSSK

NStar Access Starter Kit without Readers

Readers are sold separately.

NSEKR

NStar Access Expansion Kit with OmniProx Readers

The NSEKR is an expansion kit with readers that adds two doors to an existing NStar installation. The kit contains the NS2 controller (NS2), locking enclosure (ENC10), NS2 accessory kit (NS2ACC), two HID compatible OmniProx readers (OP10HONE), transformer (X-4) and two suppressor kits (S-4). Dimensions: 14.5" H x 12.5" W x 3.5" D (36.83 cm H x 31.75 cm W x 8.89 cm D).

ALSO AVAILABLE:

NSEK

NStar Access Expansion Kit without Readers

Readers are sold separately.

NSOPT1

NStar Software Upgrade

Enhances NStar by activating the following features: Networking to 5 concurrent NStar users; photo ID badging production includes layout utility that includes bar codes, magnetic stripe encoding and two-sided printing; auto card pop-up; Rapid Eye and Rapid Eye LT DVR support allows a pop-up of the live view, retrieve stored events and control PTZ camera(s); alarm popup view with up to 99 priority levels.

NSBDG1

NStar Access and Badging Kit

Everything needed for access and badging in one affordable kit. Includes: NStar Starter Kit with readers (NSSKR) and Software Option Pack (NSOPT1), camera, Alto photo ID badging printer (M9006-380), color ribbon (PCX-PF2) and cleaning kit (CK1).

ADI Ordering Information

NC-NS2

NS2

NS2 Control Panel, Board Only

Two reader/keypad access control panel for NStar only. 2,000 code capacity, 10,000 buffer capacity, four relays (SPDT) 12 A @ 28 VDC, eight supervised alarm inputs, RS485 communications or TCP/IP interface module (optional). 600 mA 12 VDC output for readers and auxiliary devices. Current draw is 1.25A maximum. Power requirements: 16.5 VAC (X-4) or 24 VDC @ 1.25A. Dimensions: 5.75" H x 9" W x 1.5" D (14.61 cm H x 22.86 cm W x 3.81 cm D).

NC-NSLAN1

NSLAN1

Ethernet Adapter for NS2

The NSLAN1 is a TCP/IP (10BASE-T) interface that mounts directly on the NS2 and requires no external devices or wiring and receives power from the NS2. Simply use the standard RJ45 jack to connect via CAT5 to the existing LAN/WAN network. Use one NSLAN1 for each NS2. Transmit, receive and good link diagnostic TCP/IP status indicators. Dimensions: 1.574" H x 1.929" W x 1" D (40.0 mm H x 49.0 mm W x 25.4 mm D).

NC-NS2MEM

NS2MEM

NS2 Memory Expansion Module

Expands the NS2 to 10,000 card holders and 100,000 buffers.

NC-CBL50

CBL50

RJ45 to DB9F Serial Cable for NS2 Control Panel

50' RJ45 to DB9F serial cable for use with the NS2 control panel. Included with NSSK and NSSKR.

NC-ENC10

ENC10

Universal Beige Cabinet

Beige enclosure for NS2. Dimensions: 14.5" H x 12.5" W x 3.5" D (36.83 cm H x 31.75 cm W x 8.9 cm D).

NC-ENC30

ENC30

NS2 High Density Enclosure Only

A high-density wall mount enclosure capable of housing up to nine NS2 panels. Power supply and battery sold separately. Dimensions: 13.9" H x 17" W x 9" D (35.3 cm H x 43.2 cm W x 22.9 cm D).

NC-NS2ACC

NS2ACC

NS2/NS2+ Accessory Kit

Includes cabinet lock and key, terminating resistors, LED, battery leads, surge suppressors, panel tamper and grounding block.

Digital Video Solutions

Honeywell is a whole solution provider that offers digital video integration using Honeywell DVR products. Integration through NStar, WIN-PAK® SE, WIN-PAK PE and WIN-PAK PRO Central Station allows video to be tied to access control events and alarms. Video clips can be recalled through the software based on time or event. With integration, users can have complete camera control, including pan, tilt and zoom, and verify live users with stored images using the Video Verification option.

THIS SECTION INCLUDES:

Rapid Eye™ Multi-Media DSP v8 Series

Rapid Eye™ Multi-Media v7 Series

Rapid Eye™ Multi-Media LT v7 Series

Fusion III v3.6 Series

Image courtesy of Mystic Lake Casino & Hotel - Shakopee Mdewakanton Sioux Community designed by the SMSC Gaming Enterprise.

Digital Video Solutions

Honeywell's comprehensive DVR offering encompasses a wide variety of products and features certain to provide the right solution for every situation. Whether your needs are PC-based or embedded, standalone or integrated, Honeywell's DVR lineup has just what you need. Choose from an assortment of DVRs, including the event-driven Rapid Eye Multi-Media DSP v8 Series, a 32-channel 480 ips Fusion III v3.5, the high performance HRXD, or the cost effective HRSD and HRDE 4X4.

Benefits:

- High performance and excellent video quality.
- Innovative technology, resulting in maximum storage capacity and longer recording times.
- Ability to search more quickly and effectively without losing recorded video.
- Remote access through network/telephone that can be managed from headquarters or home office.
- Fully-integrated with Honeywell's data analysis software and access control systems.
- For smarter video and tighter security, use DVR in combination with Honeywell's state-of-the-art intelligent video analytics. Honeywell's unique, patented software eliminates false alarms by automatically recognizing and classifying user defined events and behaviors.

Digital Video Solutions

DVR INTEGRATION

Honeywell offers enhanced digital video recording integration by combining its video and CCTV systems with access control systems to create powerful security solutions. With Honeywell's video systems, you get innovative PC-based digital recording technology that seamlessly integrates with access control and software systems from Honeywell's access systems. This powerful combination gives you enhanced functionality and greater control over your security needs.

DVR Integration

- Capture live video and link it to access control alarms and events such as door forced open, invalid card readers, glass break, motion alarms and others.
- Video verification for access control allows operators to verify a live user and match the user to an existing image stored in the access control database. The operator can then grant or deny access based on verification.
- Video pop-ups linked to alarms or events generated by an access control system. Thereafter, a video screen displays the event as it occurs – and operators can retrieve video prior to the alarm or event.
- Consistent camera control in the access control software, such as pan, tilt, and zoom are connected to the DVR directly from the access control software, which allows up to six cameras to be monitored simultaneously and gives the operator the ability to select specific cameras to control.
- Additional features include live video call-up, alarm view screen, digital video screen, set camera presets, history event filters, synchronized playback of multiple cameras and more.

Digital Video Solutions

Rapid Eye™ Multi-Media DSP v8 Series

- Real-time recording rates at CIF resolution: 480/400 global (NTSC/PAL)
- Up to 4CIF recording and/or viewing resolution
- Live viewing using LocalView
- Standard DVD-RW drive for local clip generation on DVD
- 16 looping video inputs
- Dual audio channels (Bi-directional and VoIP)
- 16 alarm inputs, 8 control outputs, 10 serial ports
- 4 shock mounted field replaceable hard drive bays

- Linux – secure, stable multi-tasking real-time OS
- Keyboard with USB 2.0 port for convenient clip creation on USB memory dongle
- SNTP client automatically synchronizes to SNTP servers
- RapidSearch™ for video evidence by events, data, motion or alarm
- IntelliBus™ protocol support
- Integrated intelligent video analytics option

Rapid Eye Multi-Media v7 Series

- 60 ips globally
- 16 channels of looping video inputs
- Internal storage capacity ranging from 500 to 6,250 camera days
- Optional CD-RW for clip generation and easy software upgrades
- 16 alarm inputs
- 8 control outputs

- 2 serial ports
- Fault relay: DPDT Form C relay
- Network interface: RJ45 10/100 Base T Ethernet
- Internal modem: V.90 multi-protocol
- Multi-site, single workstation license of ADMIN and VIEW software included
- Built-in POS or ATM data capture capability

Rapid Eye Multi-Media LT v7 Series

- 20 or 40 ips globally
- 4 or 9 channels of looping video input
- Internal storage capacity ranging from 200 to 2,000 camera days
- Optional CD-RW for clip generation and easy software upgrades
- 4 or 9 alarm inputs
- 4 control outputs
- 2 serial outputs
- Fault relay: DPDT Form C relay

- Network interface: RJ45 10/100 Base T Ethernet
- Internal modem: V.90 multi-protocol with 20 ips models only
- Single site and single workstation license of ADMIN and VIEW software included
- Built-in POS or ATM data capture capability

Fusion III Digital Video Recorder System

- Up to 16 channels digital IP
- Available with 8, 16 or 32 looping analog video inputs
- Global recording rates from 120/100 to 480/400 at CIF resolution (NTSC/PAL)
- Recording resolutions up to 720 x 480 (4CIF)
- Local live viewing on the real-time display models
- Internal storage capacity from 250 GB to 2 TB
- External storage options from 1 TB to 40 TB
- 16 sensor inputs and 16 control outputs
- 16 channels of audio standard on select models
- Keyboard control of camera selection and PTZ control
- Windows XP embedded operating system
- Complete local and remote configuration

- User software included with each DVR:
 - Fusion III Server Software – Local user interface
 - HFRVS Remote Software – Connect to a single DVR
 - HFVMS Remote Management Software – Connect to multiple DVRs
- New search-in-live mode feature
- Smart, preview and index searches
- Integrated intelligent video analytics option
- Integrated POS/ATM with Honeywell's IDM software
- Access control integration to Honeywell's Pro-Watch and WIN-PAK
- Powerful API available for third party software integration

Contact your Honeywell Access Systems representative for more details on Honeywell video products or visit www.honeywellvideo.com.

Visitor Management

The lobby is your first line of defense and your visitor's first impression. With increased threats, the traditional method of using a log book and generic visitor tags leaves you vulnerable. LobbyWorks™ is a simple and effective way to gain better control of your visitor traffic. With LobbyWorks, visitors are identified, potential threats are flagged, expected visitors are pre-authorized, badges are issued, sponsors are notified, and visitors are tracked while on the premises.

THIS SECTION INCLUDES:

LobbyWorks™ Kits

LobbyWorks™ Software

LobbyWorks™ Optional Hardware

LobbyWorks™ Accessories

Visitor Management

Electronic visitor management is gaining wide acceptance as an essential part of physical security infrastructure. Visitor management is being adopted across the board in many industries including pharmaceutical and healthcare facilities, food supply chain, technology R&D centers, manufacturing sites, media and communication companies, government agencies, defense contractors, chemical production sites, utilities, and finance and insurance corporate offices. All have a common need to maintain better visibility of their visitor traffic through consistent registration and visitor policy enforcement procedures.

Benefits:

Deploying the LobbyWorks™ suite is a simple and cost effective way to:

- Determine who is in your facility at all times.
- Identify unwanted visitors.
- Eliminate abuse of visitor badges.
- Protect the confidentiality of visitors.
- Facilitate communication between hosts, visitors, and security personnel.
- Improve lobby and security desk productivity.

Each day scores of visitors pass through the entrances to your facility. Having the ability to screen and track them can contribute substantially to the safety and protection of your personnel and property. For companies that have made significant investments in perimeter security and access control, the ability to automatically screen and track visitors is an essential part of a complete security plan.

NC-LWVMSSTD

LWVMSSTD

LobbyWorks Standard Edition

First license for LobbyWorks networked edition. Full featured visitor management with interface to many registration devices such as cameras, signature pad, barcode scanner, business card scanner, driver license and passport scanner, card reader, and voice modem. Standard Edition includes LobbyWorks Front Desk, Administrator, and Reporter. Supported databases: MSDE 2000, MS-SQL 2000. LobbyWorks Standard Edition can be networked with additional Front Desk licenses (LWVMSSTDCL), Kiosk Software (LWVMSEXPCL), LobbyWorks Web Center (LWVMSEBNDL) for Web-based pre-registration, and LobbyWorks Notify (LWVMSCOM) for real-time network notification.

NC-LWVMSSTC

LWVMSSTDCL

LobbyWorks Standard Edition Additional License

Additional LobbyWorks Front Desk license for LobbyWorks Standard Edition.

NC-LWVMSPRO

LWVMSPRO

LobbyWorks Professional Edition

LobbyWorks standalone edition supports the same capabilities as Standard Edition but cannot be used to network multiple station connect to LobbyWorks Kiosk, LobbyWorks Web Center, or LobbyWorks Notify.

NC-LWVMSEXP

LWVMSEXP

LobbyWorks Kiosk Software License

First license of LobbyWorks visitor self-registration software. May be used as standalone or in networked configuration. Self registration supports scanning visitor's card, identifying their host, capturing their picture, displaying NDA and visit instructions, obtaining real-time approval of the visit, and printing the visitor's badge. The LobbyWorks Kiosk may also dispense relevant visitor information. LobbyWorks Kiosk software may be used in conjunction with any touch screen or the LobbyWorks Integrated Kiosk (LWVMSISK).

Visitor Management | LOBBYWORKS™ SOFTWARE

LWVMSEXPCL

LobbyWorks Kiosk Additional License

Additional LobbyWorks Kiosk license for LobbyWorks Standard Edition (LWVMSSTD) or LobbyWorks Kiosk (LWVMSEXP).

ADI Ordering Information

NC-LWVMSEXPCL

LWVMSEBNDL

LobbyWorks Web Center

Web access to LobbyWorks server to allow hosts to pre-register their visitors, and allow security to view real-time visitor traffic and validate/sign in/sign out visitor badges. One license required per site. Requires Microsoft IIS.

NC-LWVMSEBNDL

LWVMSRPT

LobbyWorks Reporter Additional License

Report generation utility. First license comes with Standard Edition (LWVMSSTD), Professional Edition (LWVMSPRO) and LobbyWorks Kiosk (LWVMSEXP).

NC-LWVMSRPT

LWVMSCOM

LobbyWorks Notify

Real-time network pop-up at the employee's desktop to confirm the visitor is expected upon arrival, and to confirm the visitor has left the site at the end of the expected visit period. One license required per site.

NC-LWVMSCOM

LWVMSPESE

LobbyWorks Software Upgrade

Software license upgrade from LobbyWorks Professional Edition (LWVMSPRO) to Standard Edition (LWVMSSTD).

NC-LWVMSPESE

Fold-and-clip secure visitor paper badges. Can be used in ink and laser paper printers. 1,000 badges per pack. Dimensions: 4" H x 6" W (10.16 cm H x 15.24 cm W).

Control Panel Solutions

Honeywell's control panel solutions have been the reliable choice of dealers for many years.

Our controllers are the benchmark of the industry and offer unmatched flexibility and reliability that result in fewer callbacks and improved bottom-line profits for dealers. The new NetAXS™ series control panels provide the latest technology and innovations for access control solutions. NetAXS functions both as a replacement panel for the N-1000 control panel and as a next generation controller with all the capabilities our customers demand.

THIS SECTION INCLUDES:

NetAXS™

N-1000 Series

N-1000 System Kits

NS2+

Control Panel Solutions

The next generation of control panels is here. NetAXS™ is a direct N-1000 replacement that can be retrofitted* in over 100,000 installed panels. Along with the N-1000, NetAXS provides simple installation, robust operation and full features. NetAXS offers the latest technologies in IP communications, Web browser interface, fast processor and more. Use NetAXS for your next N-1000 service replacement or on your next new installation.

* Consult factory when using with C-100-A1 20mA communications, AEP-3/AEP-5 control boards, 10-wire matrix keypads, ABA magnetic stripe readers and inputs 15 and 16.

Benefits:

- Proven track record over the past 20 years of performance for single-door or multiple door applications.
- Next generation NetAXS hybrid control panel provides either Web-based or PC-based access control.
- IT friendly design that provides on-board Ethernet with NetAXS or add-on options for N-1000 and NS2+ installations using existing network wiring.
- Designed to decrease installation time and labor with removable terminal blocks, standard wiring options, simple diagnostics and flexible system architecture.
- When utilizing WIN-PAK the ability to mix and match NetAXS, N-1000 and NS2+ control panels allows updating of existing installations with powerful new features.

NETAXS CONTROL PANEL

NetAXS™ is a new hybrid access control panel that lets you program and manage your access control system using either an integrated Web browser or traditional PC-based software. The new hybrid solution provides the best of both worlds and lets you choose the level of security and functionality your business requires, bringing flexibility to access control. NetAXS can be used in-line with most N-1000 and NS2+ control panel installations.

NetAXS offers two different pre-wired configuration choices—each distinguished by simplicity and flexibility:

- Large: incorporates the control panel within a large enclosure that includes the power supply, distributed relay module and battery backup.
- Small: features the control panel and one battery within a small enclosure.

NX4L1

NetAXS Pre-wired 4 Door Hybrid Control Panel

NX4 pre-wired 4 door control panel includes large enclosure with 8 output fused relay board, 24 VDC, 6 A power supply and (2) 12 VDC, 7 A backup batteries, and (4) S-4 surge suppressors. System specifications include fast 32-bit processor with memory capacity for 10,000 card holders; 25,000 buffer capacity; 14 supervised alarm inputs, expandable to 78 inputs; 8 relay outputs (SPDT), expandable to 72 outputs; built-in Ethernet interface with integrated Linux Web server, RS232 and RS485 communication interfaces. Direct 110 VAC power cord. Dimensions: 17.7" W x 23.9" H x 4.2" D (45.0 cm W x 60.7 cm H x 9.0 cm D). Temperature: 35-110°F (2-43°C) operational humidity: 0 to 85% RHNC; UL 294 and CE listed.

ADI Ordering Information

NC-NX4L1

NX4S1

NetAXS Small 4 Door Hybrid Control Panel

NetAXS 4 door control panel includes small enclosure with NX4 control panel with 12 V, 7 A battery backup, (4) S-4 surge suppressors and x-4 16.5 VAC plug-in transformer. System specifications include fast 32-bit processor with memory capacity for 10,000 card holders; 25,000 buffer capacity; 14 supervised alarm inputs, expandable to 78 total inputs; 8 relay outputs (SPDT), expandable to 72 total outputs; built-in Ethernet interface with integrated Linux Web server, RS232 and RS485 communication interfaces. 24 VDC @ 2 A or 16.5 VAC @ 2 A. Dimensions: 14.9" W x 18.0" H x 4.4" D (36.8 cm W x 45.7 cm H x 12.0 cm D). Temperature: 35-110°F (2-43°C) operational humidity: 0 to 85% RHNC; UL 294 and CE listed.

NX4OP40L

NetAXS with Large Enclosure - Standalone Web-based Access 4 Door Kit with OP40HONE

NetAXS Standalone Web Controller Kit with 4 OP40HONE Proximity Readers, large enclosure, NX4 control panel, 8 output fused relay board, 24 VDC, 6 A power supply and (2) 12 VDC, 7 A backup batteries.

WPNX4S30

NetAXS with Small Enclosure - Access Control Kit with OP30HONE Readers and WIN-PAK SE Single User Access Control Software

NetAXS Controller Kit with 4 OP30HONE Proximity Readers, small enclosure, NX4 control panel, transformer, 12 VDC, 7 A backup battery and WPSE Software.

WPNX4L30

NetAXS with Large Enclosure - Access Control Kit with OP30HONE Readers and WIN-PAK SE Single User Access Control Software

NetAXS Controller Kit with 4 OP30HONE Proximity Readers, large enclosure, NX4 control panel, 8 output fused relay board, 24 VDC, 6 A power supply, (2) 12 VDC, 7 A backup batteries and WPSE Software.

N-1000 CONTROL PANELS

Versatility, reliability and expandability are the three main features that make the N-1000 one of the most popular access control panels ever. The N-1000's distributed database stores all card, time zone, relay control and alarm point information in its memory.

ADI Ordering Information

N-1000-IV

Intelligent 4 Door Controller

4 reader access control panel. Supports proximity, smart, Wiegand, magnetic stripe, keypad, barcode, vehicle ID and biometric devices. 5,000 code capacity, 10,200 buffer capacity, four relays (DPDT), 16 supervised alarm inputs, 20 mA or RS485 communications (RS485 requires the use of N-485-HUB-2 or N-485-PCI-2 interfaces). Includes 12 V battery backup, detachable terminal blocks, locking enclosure with tamper switch. 12 V 500 mA output for external readers. Requires 16.5 VAC transformer (X-4) or 12 VDC power supply (HPS123) for panel power and one suppressor kit (S-4) per used (active) relay. Current draw is 1.8 A maximum. Use with WIN-PAK software. Dimensions: 14" H x 18" W x 4" D (35.5 cm H x 45.6 cm W x 10.0 cm D). UL 294 and CE listed.

ALSO AVAILABLE:

N-1000-IV-X

Expanded Intelligent 4 Door Controller

Same as the N-1000-IV with 8 total relays and expanded memory (25,000 codes and 6,600 buffers).

N-1000-IV-CB

N-1000-IV Circuit Board Only

Circuit board only. Dimensions: 11" H x 11" W x 1.5" D (27.94 cm H x 27.94 cm W x 3.81 cm D).

N-1000-IV-X-CB

N-1000-IV-X Circuit Board Only

Circuit board only. Dimensions: 11" H x 11" W x 1.5" D (27.94 cm H x 27.94 cm W x 3.81 cm D).

N-1000-III

Intelligent 2 Door Controller

2 reader/keypad access control panel. Supports proximity, smart, Wiegand, magnetic stripe, keypad, barcode, vehicle ID and biometric devices. 5,000 code capacity, 10,200 buffer capacity, 4 relays (DPDT), 16 supervised alarm inputs standard, 20 mA or RS485 communications (RS485 requires the use of N-485-HUB-2 or N-485-PCI-2 interfaces). Includes 12 V battery backup, detachable terminal blocks, locking enclosure with tamper switch. 12 V 500 mA output for external readers. Requires 16.5 VAC transformer (X-4) or 12 VDC power supply (HPS123) for panel power and one suppressor kit (S-4) per used (active) relay. Current draw is 1.8 A maximum. Dimensions: 14" H x 18" W x 4" D (35.5 cm H x 45.6 cm W x 10.0 cm D). Use with WIN-PAK software. UL 294 and CE listed.

N-1000-III-X Control Panel Kit

N-1000 SERIES ACCESSORIES

AEP-3

Expanded Relay Board 8 Outputs DPDT

Auxiliary output board. Provides 8 additional relay outputs to any N-1000 panel with version 5.10 or newer firmware (excluding version 6). Up to two AEP-3 boards per N-1000 panel. Can be mounted on the inside cover of the N-1000 control panel or separately in the ENC-1 enclosure. Contacts are DPDT. Includes interconnecting cable (AEP-3-CBL). Requires separate 12 VAC 20 VA transformer (X-2) or 12 VDC power supply (HPS123, linear @ 500 mA). Current draw is 150 to 325 mA. Dimensions: 6" H x 10" W x 1.75" D, (15.24 cm H x 25.4 cm W x 4.445 cm D). Operating temperature range: 35°-110° F (2°-43°C).

AEP-3-CBL

AEP-3 Interconnecting Cable

Used to connect two AEP-3 relay boards or for use between AEP-3 and N-1000 panel.

ENC-3

Enclosure for N-1000-III

Enclosure for N-1000-III with knockouts, hinged cover and lock and key. Tamper switch provided.

ALSO AVAILABLE:

ENC-4

Enclosure for N-1000-IV

ROCKET4

4 Door Access Control Starter Kit

Includes WIN-PAK SE (WPSE), RS485 converter (N-485-PCI-2), 4 door control panel (N-1000-IV-X), four OmniProx proximity readers (OP30HONE), transformer (X-4) and four suppressor kits (S-4).

ADI Ordering Information

NC-ROCKET4

Includes 2 door control panel (N-1000-III), two OmniProx proximity readers (OP30HONE), transformer (X-4) and two suppressor kits (S-4).

NC-BOOSTER2

BOOSTER4

4 Door Add-On Kit for Rocket Box

Includes 4 door control panel (N-1000-IV-X), four OmniProx proximity readers (OP30HONE), transformer (X-4) and four suppressor kits (S-4).

NC-BOOSTER4

TSAP

4 Door Total Starter Access Package

The most complete system on the market, all you need to add is wire, locks and cards. This starter kit includes WIN-PAK SE access control software (WPSE), N-1000 control panel with transformer and four surge suppressors (N1000K4), RS45 interface (N-485-PCI-2), four OmniProx HID compatible mullion mount readers (OP30HONE), 12 VDC power supply (HPS123), four request-to-exit devices (IS310WH) and four door contacts (7939WH).

NC-TSAP

TEAP2

2 Door Total Expansion Package

2-door expansion kit for the total starter package. This expansion kit includes an N-1000 control panel with transformer and two surge suppressors (N1000K3), two OmniProx HID compatible mullion mount readers (OP30HONE), 12 VDC power supply (HPS123), two request-to-exit devices (IS310WH) and two door contacts (7939WH).

NC-TEAP2

TEAP4

4 Door Total Expansion Package

4 door expansion kit for the total starter package. This expansion kit includes N-1000 control panel with transformer and four surge suppressors (N1000K4), four OmniProx HID compatible mullion mount readers (OP30HONE), 12 VDC power supply (HPS123), four request-to-exit devices (IS310WH) and four door contacts (7939WH).

NC-TEAP4

NS2+ CONTROL PANEL

The NS2+ is an intelligent 2 door controller with the feature set and processing power comparable to many advanced controllers yet it's user-friendly, installs quickly and is highly economical for entry to mid-level solutions. The NS2+ boasts a 32-bit processor and memory capacity to simultaneously support 10,000 cardholders and 100,000 transactions. With an optional on-board TCP/IP interface, the NS2+ is capable of meeting the growing demand for Ethernet-based solutions.

ADI Ordering Information

NC-NS2P

NS2P

NS2+ Intelligent 2 Door Controller

2 reader/keypad access control panel. 10,000 card capacity, 100,000 buffer capacity, four relays (SPDT) 12 A @ 28 VDC, 8 supervised alarm inputs, RS485 communications or TCP/IP interface module (optional). Requires WIN-PAK SE, WIN-PAK PE, WIN-PAK PRO 2005 or WIN-PAK PRO Central Station. Includes locking enclosure with tamper switch, transformer (X-4) and two surge suppressors (S-4). 600 mA @ 12 VDC output for readers and auxiliary devices. Current draw: 1.25 A maximum. Dimensions: 14.5" H x 12.5" W x 3.5" D (36.33 cm H x 31.75 cm W x 8.89 cm D).

NC-NS2UPG1

NS2UPG1

NS2+ Upgrade Kit

Upgrade from NS2 to NS2+ control panel.

NC-NSLAN1

NSLAN1

Ethernet Adapter for NS2+

The NSLAN1 is a TCP/IP (10Base-T) interface that mounts directly on the NS2+ and requires no external devices or wiring and receives power from the NS2+. Simply use the standard RJ45 jack to connect via CAT5 to the existing LAN/WAN network. Use one NSLAN1 for each NS2+. Transmit, receive and good link diagnostic TCP/IP status indicators. Dimensions: 1.57" H x 1.93" W x 1.0" D (40.0 mm H x 49.0 mm W x 25.4 mm D).

NC-CBL50

CBL50

RJ45 to DB9F Serial Cable for NS2+ Control Panel

50' RJ45 to DB9F serial cable for use with the NS2+ control panel.

NC-BAT3

BAT-3

12V, 4AH Backup Battery

12V battery for the N-1000-III, N-1000-IV, NS2 and NS2+ panels.

NC-NS2ACC

NS2ACC

NS2/NS2+ Accessory Kit

Includes cabinet lock and key, terminating resistors, LED, battery leads, S-4 surge suppressors, panel tamper and grounding block.

NC-BOOSTER2P

Notes

Standalone Systems

Honeywell's standalone solutions provide an opportunity for dealers to offer access control for single door applications. And when the need arises these single-door/standalone solutions can be expanded to include additional readers or migrate to a full-fledged access control system.

THIS SECTION INCLUDES:

NS1

EntryProx

Standalone Systems

Based on our experience, we know that customers that start with one door eventually add more doors to an installation. With Honeywell's standalone solutions users can start small and expand as their needs grow. The NS1 is a complete standalone controller that can be expanded to eight doors. The EntryProx is a single door solution that is also simple to install. Both solutions can easily migrate to a full-featured system.

Benefits:

- Multiple programming options, keypad, programming cards or PC-based software (NS1).
- Wiegand output allows both systems to communicate to a full Honeywell access control system.
- Indoor or outdoor options provide ideal applications for gates, vestibules, small retail, storage lockers, and more.
- Complete audit trail and reporting options provide full system functionality at a fraction of the price.
- The NS1 can expand to up to eight readers connected through PC software.
- Tamper resistant option provides input to a sounder or alarm.
- Flexible options for users wanting cards or key tags.

NS1

The NS1 offers a variety of options unparalleled in an entry-level product. Its small size, combined with powerful functions and programming capabilities, makes the NS1 ideal for small entry-level applications with a single door or up to eight doors of access control. Within the flexibility of the NS1, it is also capable of migrating to other control panels as a functional proximity reader.

Features:

- 5,000 tag memory
- 2,300 event storage
- Real-time clock with two access levels
- 3 colored bezels included
- 3-5" read range
- PC-based software option

NS1

Integrated Single Door Proximity Reader/Controller

The NS1 is an integrated proximity reader and door controller designed to operate in standalone or in a network mode. Supports EM format cards (NS1CARD). Requires 12 VDC @ 40 mA nominal voltage power supply (NS1PS). Dimensions: 3.25" H x 1.89" W x .96" D (82.5 mm H x 48 mm W x 24.5 mm D). Operating temperature: 5° - 158° F (-15° - 70° C). Humidity: max 100%. Completely sealed for outdoor applications.

ADI Ordering Information

NS1EM1

NS1 with 10 Proximity Cards and Program Master Cards

Complete kit containing the NS1 controller, 10 EM format cards (NS1CARD) and Program Master cards. Power supply (NS1PS) not included.

NS1EM2

NS1 with 10 Proximity Key Tags and Program Master Cards

Complete kit containing the NS1 controller, 10 EM format key tags (NS1TAG) and Program Master cards. Power supply (NS1PS) not included.

NS1EM3

NS1 with PC Manage Software, 485 Connection Unit & Cable

The NS1EM3 kit contains the NS1 controller, USB to RS485 converter and cable along with the NS1 Manage software for programming and monitoring via a Windows-based PC. Network up to 8 units when connected to NS1 Manage software. 485 connection interface unit (NS1CU) is required for each additional NS1. Supports Microsoft Windows 2000, XP and Vista. Requires 12 VDC @ 40 mA nominal voltage power supply (NS1PS).

ADI Ordering Information

NC-NS1PRG

NS1PRG

Wireless RF NS1 Programmer

The NS1PRG remote programmer is a wireless programming keypad for the NS1 or N-300. All system configuration and settings can be made with the NS1PRG. The programmer utilizes a passive RF design and does not require batteries. Dimensions: 3.5" H x 2.17" W x .5" D (90 mm H x 55 mm W x 14 mm D).

NC-NS1CARD

NS1CARD

10 Pack of PVC Printable Proximity Cards for the NS1

Pack of 10 EM format PVC printable cards for the NS1 or N-300.

NC-NS1PC25

NS1PC25

25 Pack of PVC Printable Proximity Cards for the NS1

Pack of 25 EM format PVC printable cards for the NS1 or N-300.

NC-NS1TAG

NS1TAG

10 Pack Proximity Key Tags for the NS1

Pack of 10 EM format key tags for the NS1 or N-300.

NC-NS1CU

NS1CU

NS1 485 Connection Interface Unit

The NS1CU connection interface unit provides an interface from the NS1 reader to a PC for programming and monitoring utilizing the NS1 Manage software. The connection unit makes installation easy by providing an interface for NS1 communication, door lock (2 A @ 30 VDC relay), door status contact and REX. Communication is RS232 from PC to NS1CU with a standard DB9 connection. Dimensions: 3.88" H x 4.63" W x 1.75" D (98 mm H x 118 mm W x 45 mm D). Power requirements: 12 VDC @ 400 mA.

NS1 KITS

NC-NS1K1

NS1K1

Single Door Starter Kit with RS485 Interface – 10 Cards

Single Door Starter Kit with RS485 Expansion up to 8 Doors includes NS1 Single Door Controller with HID reader, 100 ft. USB Extender, 12 VDC, 4 A Power Supply, HP400ULM Battery Backup, 200 ft. Power Cable, PC Software, RS485 Communications Interface and 10 Pack Proximity Cards.

NC-NS1K2

NS1K2

NS1 Single Door Starter Kit with RS485 Interface - 10 Tags

Single Door Starter Kit with RS485 Expansion up to 8 Doors includes NS1 Single Door Controller with HID reader, 100 ft. USB Extender, 12 VDC, 4 A Power Supply, HP400ULM Battery Backup, 200 ft. Power Cable, PC Software, RS485 Communications Interface and 10 Pack Key Tags.

NS1K3

NS1 Single Door Add-On Kit

NS1 Single Door Controller Add-On to NS1K1 and NS1K2. Kit includes NS1 Single Door Controller, RS485 Communications Interface, 200 ft. Communications Cable and 200 ft. Power Cable.

RIO 2e™ / TANGO 2e™ PRINTERS

Whether your badging needs demand production of hundreds of badges a day or just a few, the Rio 2e™ and Tango 2e™ printers provide a combination of ease of use and reliability to meet your demands. The Rio 2e printer provides simplex (one-sided) card printing while the Tango 2e provides duplex (two-sided) card printing and lamination. The built in HoloKote™ security watermark feature comes standard with both printers.

Features:

- Edge-to-edge printing
- 20 second print time (40 seconds for color duplex)
- LCD display
- 100 card hopper
- USB and parallel cables included
- 3-year warranty with loaner
- USB, Ethernet and parallel interfaces

RIO 2e/TANGO 2e ADD-ON BADGING KITS

PB35KT

Rio 2e Add-On Simplex Badging Kit

Photo ID badging kit. Includes Rio 2e simplex badging printer (M9006-749), color ribbon, camera, tripod, lighting kit and 25 blank cards. Video capture card required for NStar, WIN-PAK 2.0 and WIN-PAK PRO systems (PBVC15). No video capture card is required when used with WIN-PAK SE, WIN-PAK PE, WIN-PAK 2005 or WIN-PAK PRO 2005. Not intended for installation on a file server OS.

PB35MOKT

Rio 2e Add-On Simplex and Magnetic Stripe Badging Kit

Photo ID badging kit. Includes Rio 2e simplex badging printer with magnetic stripe encoder (M9006-751), color ribbon, camera, tripod, lighting kit and 25 blank cards. Video capture card required for NStar, WIN-PAK 2.0 and WIN-PAK PRO systems (PBVC15). No video capture card is required when used with WIN-PAK SE, WIN-PAK PE, WIN-PAK 2005 or WIN-PAK PRO 2005. Not intended for installation on a file server OS.

PB35DOKT

Tango 2e Add-On Duplex Badging Kit

Photo ID badging kit. Includes Tango 2e duplex badging printer (M9006-745), color ribbon, camera, tripod, lighting kit and 25 blank cards. Video capture card required for NStar, WIN-PAK 2.0 and WIN-PAK PRO systems (PBVC15). No video capture card is required when used with WIN-PAK SE, WIN-PAK PE, WIN-PAK 2005 or WIN-PAK PRO 2005. Not intended for installation on a file server OS.

PB35DMKT

Tango 2e Add-On Duplex and Magnetic Stripe Encoder Badging Kit

Photo ID badging kit. Includes Tango 2e duplex badging printer with magnetic stripe encoder (M9006-747), color ribbon, camera, tripod, lighting kit and 25 blank cards. Video capture card required for NStar, WIN-PAK 2.0 and WIN-PAK PRO systems (PBVC15). No video capture card is required when used with WIN-PAK SE, WIN-PAK PE, WIN-PAK 2005 or WIN-PAK PRO 2005. Not intended for installation on a file server OS.

PRIMA™ PRINTERS

The reverse-transfer PRIMA 3 is ideal for producing top quality, durable cards. The quality of the finished card is similar to that achieved by off-set litho printing, but with the advantage that every card can be different. All PRIMA printers weigh 48.5 lbs. (22 kg) and measure 15.0" H x 13.4" W x 13.4" D (28.1 cm H x 34.0 cm W x 34.0 cm D).

Features:

- Prints 40 seconds/side color
- 1000 – print retransfer film
- 300 card hopper
- 3-year hot swap warranty (US & Canada)
- 1000 – print YMCK ribbon
- Interface: USB or Ethernet

PRIMA064E

PRIMA Inline Single Side Lamination Unit

PRIMA154E

PRIMA Laminator Turn Over Unit

Connected to a single PRIMA064E, the PRIMA154E can flip the card over and push it back into the PRIMA154E to laminate the second side.

MC200 PRINTERS

When all you need is a standalone badging for small to medium size applications, the MC200 is just the right solution. The MC200 provides the convenience of an auto feed printer for larger printing jobs and can be easily upgraded in a matter of seconds to provide duplex printing. The built-in HoloKote™ security watermark feature provides a choice of four watermark designs.

Features:

- 1-year warranty with loaner
- Edge-to-edge printing
- LCD display

3633-0003

Light-Medium Duty Auto Feed Card Printer

MC200 photo ID badge printer for single side print applications.
Weight: 12 lbs (5.5 kg). Power Supply: 100-240V 50-60 Hz.
Dimensions: 17.8" L x 8.1" W x 9.2" H (453 mm L x 206 mm W x 233 mm H) including hopper and stacker. Environment 50°F to 85°F (0°C to 30°C).

3633-0052

Drop-in duplex upgrade

Upgrades the MC200 to two-sided (duplex) printing. Order once and the appropriate ribbon: 3633-130 for two-sided color 150 cards (300 prints); 3633-137 for 250 cards with one side color and the second side resin black.

UE-36330052

ALTO™ PRINTERS

For small applications the Alto™ printer provides quality badge printing at an affordable price. Cards are conveniently stored in a dispenser allowing only one card to be hand fed at a time. Flip the card over and print on the other side and save the cost of a more expensive duplex printer. The built in HoloKote™ security watermark feature comes standard.

Features:

- Edge-to-edge printing
- 30 second print time
- USB cable included
- 3-year warranty with loaner

Wireless Readers

Readers & Credentials

Honeywell's OmniProx™ offers a complete line of HID compatible 125 kHz proximity readers. The new OmniAssure™ family is a line of smart card readers that are the easiest to use in today's market. In addition to the above brands, Honeywell offers a wide selection of popular readers and credentials from other manufacturers such as HID®, Precise Biometrics and Indala®, to name a few.

Benefits:

- Unprecedented choice in the type, shape, size and color for readers.
- Comprehensive offering of 125 kHz proximity, magnetic stripe and keypad readers provides an economical access control solution for retrofits, expansions and new installations.
- Availability of newer technologies such as 13.56 MHz smart cards and readers provides the ability to offer sophisticated access control solutions that can integrate with other enterprise functions such as logical access or financial transactions.
- Biometric solutions offer enhanced security for sensitive facilities and also bridge the gap between physical and logical security.

OMNIPROX™ PROXIMITY READERS

The OmniProx™ family is a complete line of 125 kHz HID® compatible proximity readers. All OmniProx readers (except the OP90) include three bezels: black, charcoal gray and ivory and are potted for both indoor and outdoor applications. For locations that require a proximity reader able to withstand vandal-prone environments, the OP90 vandal resistant readers come standard in zinc die-cast metal housing.

OP10HONE

OmniProx Mini Mullion Mount Reader with Honeywell Logo

Mini mullion, HID compatible reader with up to a 3" (7.62 cm) read range and includes black, charcoal gray and ivory bezels. This reader features a built-in tamper and Wiegand output. Dimensions: 3.15" H x 1.57" W x 0.50" D (8.0 cm H x 4.0 cm W x 1.28 cm D).

3 colored bezels included

ALSO AVAILABLE:

OP40GEN

OmniProx Wall Mount Reader with No Logo

OP90HON

OmniProx Vandal Resistant Mount Reader with Honeywell Logo

Stainless steel, vandal-resistant reader with up to a 1.5" (3.81 cm) read range. This reader features a built-in tamper and Wiegand output. Dimensions: 4.75" H x 3" W x 0.82" D (12.1 cm H x 7.6 cm W x 2.1 cm D).

OMNIPROX KITS

OP30RTEWH

OmniProx Mullion Mount Reader and PIR Kit

Includes an OmniProx mullion mount reader (OP30HON) and a white PIR (IS310WH). Mullion, HID compatible reader with up to a 5" (12.7cm) read range and includes black, charcoal gray and ivory bezels. This reader features a built-in tamper and Wiegand output. Dimensions: 5.71" H x 1.69" W x .79" D (14.5 cm H x 4.3 cm W x 2.0 cm D).

ALSO AVAILABLE:

OP30RTEBK

OmniProx Mullion Mount Reader and PIR Kit

Includes an OmniProx reader (OP30HON) and a black PIR (IS310BK).

OP40RTEWH

OmniProx Wall Mount Reader and PIR Kit

Includes an OmniProx wall mount reader (OP40HON) and a white PIR (IS310WH). Single gangbox, HID compatible reader with up to a 4" (10.16 cm) read range and includes black, charcoal gray and ivory bezels. This reader features a built-in tamper and Wiegand output. Dimensions: 4.33" H x 2.95" W x .59" D (11.0 cm H x 7.5cm W x 1.5 cm D).

ALSO AVAILABLE:

OP40RTEBK

OmniProx Wall Mount Reader and PIR Kit

Includes an OmniProx reader (OP40HON) and a black PIR (IS310BK).

HID PROXIMITY READERS

The HID 125 kHz proximity reader family offers readers for many environments from basic UL-rated, indoor/outdoor environments to explosion-proof environments and many read-ranges from basic mini-mullion readers to longer-range parking lot readers. HID 125 kHz proximity readers include models with or without keypads as well as glass-mount options. HID 125 kHz proximity cards are available in both standard and custom configurations to address application needs.

HU/5365EGP00 (formerly PR-MINI-PROX)

HID MiniProx Reader, Charcoal Gray

Exterior or interior proximity reader with up to a 4" (10.16 cm) read range. Charcoal gray with HID artwork. Requires 5-16 VDC linear power supply. Dimensions: 6" H x 1.7" W x .7" D (15.24 cm H x 4.32 cm W x 1.78 cm D).

ALSO AVAILABLE:

HU/5365EBP00 (formerly PR-MINI-PROX-B)

HU/5375AGN00 (formerly PR-MAX-PRO)

HID Maxi-Prox® Reader, Charcoal Gray

Exterior or interior proximity reader with up to a 22" (55.9 cm) read range. Requires 12-24 VDC linear power supply (HPS123). Dimensions: 12" H x 12" W x 1" D (30.48 cm H x 30.48 cm W x 2.54 cm D).

ADI Ordering Information

HU-5375AGN00

HU/5385AGB00 (formerly NC-862814)

MultiProx Reader – Back Connect, Charcoal Gray

The MultiProx reader reads the HID or Schlage proximity card. The reader is a direct replacement for the Schlage 2700 or 2800 series sensor. Exterior or interior proximity reader with a read range up to 3" (7.6 cm). Dimensions: 7.5" H x 7.5" W x .8" D (19 cm H x 19 cm W x 2 cm D). Power: 50 mA at 24 VDC powered by the controller.

HU-5385AGB00

HU/5385AGS00 (formerly NC-862815)

MultiProx Reader – Side Connect

The MultiProx reader reads the HID or Schlage proximity card. The reader is a direct replacement for the Schlage 2700 or 2800 series sensor. Exterior or interior proximity reader with a read range up to 3" (7.62 cm). Dimensions: 7.5" H x 7.5" W x .8" D (19 cm H x 19 cm W x 2 cm D). Power: 50 mA at 24 VDC powered by the controller.

HU-5385AGS00

HU/6020ANN00 (formerly NC-86774)

HID MultiProx HSM

The MultiProx HSM replaces the Schlage MSM, which contains four inputs and four dry contacts. Dimensions: 4.5" H x 4.5" W x 2.3" D (11.4 cm H x 11.4 cm W x 5.8 cm D).

HU-6020ANN00

HU/6000BNN00 (formerly NC-86808)

MultiProx Controller

The MultiProx controller replaces the Schlage 708 or 808 series reader controller. Dimensions: 10.4" H x 18" W x 2.7" D (26.4 cm H x 46 cm W x 6.8 cm D). Power: 2.0A at 24 VDC. Temperature: 0° to 122° F (-20° to 50° C).

Note For Special Card Orders:

If you are requesting specific facility code(s) and/or card number(s), you must order the cards with the following added to the part number: -SPEC.

For example, when ordering PX-4-H cards for a specific range of card numbers, you would specify PX-4-H-SPEC. (This does not include cards requiring custom artwork. Please consult Honeywell Access Systems for quotation and minimum order requirements.)

1. Include facility code(s) or card number(s).
2. Additional cost for cards.
3. Lead times vary. Check with your sales representative to confirm.
4. A minimum order of 100 is required on all special cards, except Indala PVC cards which require a minimum of 500.
5. Wiegand special order cards vary approximately 5% over or under when ordered.

PVC-H-4

HID PVC ProxCards® (34-Bit)

HID PVC proximity card sequentially numbered where encoded number equals printed number. Allows a video photo ID to be printed directly on the card surface. This card can be used with all PVC printers.

ALSO AVAILABLE:

PVC-H-4-26

HID PVC ProxCards (26-Bit)

PX-ISOPROX

HID ISOProx® PVC Access Control Card (26-Bit)

HID artwork.

PVCH4NP

Non-Programmed HID PVC Card

HID PVC proximity card non-programmed.

ADI Ordering Information

PVC-H-5

HID PVC ProxCards (34-Bit) with Magnetic Stripe (Not Encoded)

HID PVC proximity card with magnetic stripe (not encoded) sequentially numbered where encoded number equals printed number. Allows a video photo ID to be printed directly on the card surface. This card can be used with all PVC printers.

ALSO AVAILABLE:

PVC-H-5-26

HID PVC ProxCards (26-Bit) with Magnetic Stripe (Not Encoded)

PVCH5NP

Non-Programmed HID PVC Card with Magnetic Stripe (Not Encoded)

PVC-H-6

HID DuoProx® (34-Bit) 2 Sided Glossy with Magnetic Stripe

RF programmable card offers proximity, magnetic stripe and photo identification technologies on a single access control card. 34-bit, two sided, glossy printable surface. Made of a thin, flexible polyvinyl chloride (PVC) laminate with an ABA standard, high coercivity magnetic stripe rated 4000 Oersted. Dimensions: 2.125" H x 3.375" W x 0.031" T (5.4 cm H x 8.57 cm W x 0.079 cm T).

NC-PX115I

OMNIASSURE™ SMART CARD READERS

Honeywell's OmniAssure contactless smart card family is based on 13.56 MHz technology. The OmniAssure family eloquently combines compliance with convenience. Their U.S. patent-pending flash-on-card design makes OmniAssure readers the easiest to use in today's market. With flash-on-card, the reader's flash firmware can be easily updated to support changing government standards without removing the readers from the wall. The OmniAssure family has options to support FIPS 201 PIV II, TWIC, FRAC, DoD CAC, open standard ISO 14443 (Mifare®, DESFire® and SmartMX®), and 125 kHz HID® Prox cards.

OmniAssure Mullion Reader with Keypad, Silver, PIV II +

Smart card mullion-style keypad/proximity reader with a silver bezel and a terminal block connection. Default credentials are PIV II and 125 kHz HID proximity cards. Reprogrammable for TWIC, FRAC, CAC, ISO14443 A/B, Mifare, DESFire, SmartMX credentials. Flash update capable via flash smart card. Output interfaces: Wiegand, clock & data, RS485/RS232/RS422. Requires 4.5-16 VDC linear power supply. Maximum current: 400 mA @ 5 VDC, 167 mA @ 12 VDC. Dimensions: 5.59" H x 1.81" W x .98" D (14.2 cm H x 4.62 cm W x 2.5 cm D). Operating temperature range: -4° to 140° F (-20° to 60° C).

ALSO AVAILABLE:

OT36HONAS

OmniAssure Mullion Reader with Keypad, Silver, Card Serial Number Only + 125 kHz HID Prox

Default credentials are Mifare, DESFire, ISO14443 A/B and 125 kHz HID proximity cards. Reprogrammable for PIV II, TWIC, FRAC, CAC, SmartMX credentials.

OT36SPEC

OmniAssure Mullion Reader with Keypad, Silver, Special Order Configuration + 125 kHz HID Prox

Custom reader configuration and card credential.

OT70HONA

OmniAssure Mullion Fingerprint Reader, Silver, DESFire Serial Number Only

Smart card mullion-style fingerprint/proximity reader with a silver bezel and a terminal block connection. It is a dual factor reader that verifies the live fingerprint against the template stored in a smart card. Default credential is DESFire. Reprogrammable for ISO14443 A/B, Mifare, SmartMX credentials. Flash update capable via PC connection. Output interfaces: Wiegand, clock & data, RS485/RS232/RS422. Requires 8-24 VDC linear power supply. Maximum current: 417 mA @ 12 VDC, 208 mA @ 24 VDC. Dimensions: 7.58" H x 1.99" W x 1.69" D (19.25 cm H x 5.05 cm W x 4.3 cm D). Operating temperature range: 32° to 140° F (0° to 60° C).

ALSO AVAILABLE:

OT70HONAS

OmniAssure Mullion Fingerprint Reader, Silver, Mifare Serial Number Only

Default credential is Mifare. Reprogrammable for ISO14443 A/B, DESFire, SmartMX credentials.

IEMOUNT

Single Gang Reader Mounting Kit

Single gangbox mounting kit for all OmniAssure OT30, OT31, OT35, and OT36 models. Makes overall reader dimensions 5.59" H x 2.87" W x 1.1" D (14.2 cm H x 7.32 cm W x 2.8 cm D).

ALSO AVAILABLE:

IEMOUNT2

Single Gang Reader Mounting Kit

Single gangbox mounting kit for all OmniAssure OT70 and OT75 models. Makes overall reader dimensions 8.58" H x 2.99" W x 2.05" D (21.8 cm H x 7.6 cm W x 5.2 cm D).

IETAMPER

Tamper Switch Accessory for OmniAssure readers

OMNICLASS™

Honeywell's OmniClass™ contactless smart card family is based on 13.56 MHz technology. The OmniClass family's encryption provides more security than standard 125 kHz proximity. The OmniClass readers support ISO14443A, 14443B and 15693, although the reader may only be able to read the card serial number on some cards. OmniClass credentials that are 16K can also store data for other applications, allowing campuses and other facilities to issue a single card. OmniClass credentials include multi-technology cards with OmniClass, HID prox and/or magnetic stripe.

OM15BHONA

OmniClass R15 Mullion Reader, Black

OmniClass mullion style smart card reader (FIPS 201 compliant) with 18" pigtail wire connection. Compatible with OmniClass, iCLASS®, and PIV II credentials. Up to 3.0" (7.6 cm) read range. Current requirements: 55 mA average, 112 mA peak @ 12 VDC. Dimensions: 6.0" H x 1.9" W x 0.9" D (15.3 cm H x 4.8 cm W x 2.3 cm D).

OmniClass 16K Key Fob (26-Bit)

NC-OKK2N26

NOTE: 34-bit HAS format is recommended as it allows the most flexibility for future access control system expansions.

Note For Special Card Orders:

If you are requesting specific facility code(s) and/or card number(s), you must order the OmniClass cards with the following added to the part number: SP. For example, when ordering OKP0N26 cards for a specific range of card numbers, you would specify OKP0N26SP. (This does not include cards requiring custom artwork. Please consult Honeywell Access Systems for quotation and minimum order requirements.)

1. Include facility code(s) or card number(s).
2. Additional cost for cards.
3. Lead times vary. Check with your sales representative to confirm.
4. A minimum order of 100 is required on all special cards, except Motorola PVC cards which require a minimum of 500.
5. Wiegand special order cards vary approximately 5% over or under when ordered.

BIOMETRICS

Technology-proven fingerprint and hand geometry readers enable security managers to ensure that the person with the card is the person to whom the card was issued. Biometric solutions are encouraged for high-security facilities or locations within a facility. When installing readers outdoors, please review needs for enclosures, heaters and/or cooling fans.

ADI Ordering Information

BVVSMARTI

V-Smart™ with HID iClass 13.56 MHz Reader

V-Smart with HID iClass/OmniClass 13.56 MHz reader is a dual factor reader for security and access control. It verifies the live fingerprint against the template stored in the 16K smart card and allows for Wiegand communication formats up to 64 bits. Operating temperature range: 32° to 140° F (0° to 60° C). Dimensions: 5.1" H x 4.7" W x 2.5" D (13 cm H x 11.8 cm W x 6.4 cm D).

ALSO AVAILABLE:

BVVSMART

V-Smart with Mifare 13.56 MHz Reader

BVVVTENCW

V-Smart Outdoor Enclosure with Window

Dimensions: 11.5" H x 8.07" W x 5.5" D (29.2 cm H x 20.5 cm W x 14.0 cm D). Lid lifts up and is 11.25" H x 9.25" W (28.6 cm H x 23.5 cm W). Reader not included.

BVVSTATNA

V-Station Base Model with LCD Display Up to 3,550 Templates

A fingerprint biometric terminal for use with security and access control systems, V-Station includes LCD display and keypad. The fingerprint is verified against the template stored in the terminal after it has been chosen by PIN or external Wiegand device. Up to 3,550 templates stored in each terminal. Operating temperature range: 32° to 140° F (0° to 60° C). Dimensions: 5.63" H x 6.63" W x 2.63" D (14.3 cm H x 16.8 cm W x 6.7 cm D).

BVVSTATNAS

V-Station Base Model with LCD and Display, Search, Up to 200 Templates

Includes LCD display, keypad and fingerprint identification. Identifies the user from up to 200 templates stored in the terminal without use of card or PIN.

HG-4

HandKey CR Hand Geometry Reader

Biometric hand geometry reader, 512 users. Operating temperature range: 32° to 113° F (0° to 45° C) with 20 to 80% relative humidity non-condensing. Dimensions: 11.65" H x 8.85" W x 8.55" D (29.6 cm H x 22.3 cm W x 21.7 cm D)

ALSO AVAILABLE:

HG4ICLASS

HandKey CR Hand Geometry Reader with iClass Smart Card Reader

Biometric hand geometry reader including an iClass/OmniClass smart card reader. Templates are stored on the smart card.

HG4-PROX

HandKey Hand Geometry Reader with HID Proximity Reader

HG-4 HandKey biometric reader with internal HID proximity reader.

HG4-II

HandKey II Standalone Hand Geometry Reader

Standalone biometric hand geometry reader with two auxiliary and a door egress input and three auxiliary outputs, for interior usage, 512 users.

HGEN200

Ethernet Module for HG4

10Base-T with RJ-45 connector. Must be ordered at time of purchase in order to be installed at the factory. Cannot be installed in the field.

HGHNR5

Handnet for Windows®, 5 Reader License (Includes RS485 Interface)

HandNet for Windows software is used to link HandKey units into an integrated system. All alarms and transactions will report back to a central computer in real time, making monitoring easy and efficient. System user activity reports are easily created and printed. Up to 5 readers supported.

ALSO AVAILABLE:

HGHNR25

Handnet for Windows, 25 Reader License (Includes RS485 Interface)

Up to 25 readers supported.

HGHNRUNL

Handnet for Windows, Unlimited Reader License (Includes RS485 Interface)

Unlimited number of readers supported.

Wiegand Key Reader

Wiegand key insertion reader for exterior or interior use. Flush mount using mounting plate (HU/W3131550). Compatible with all Wiegand keys. Dimensions: 1.62" H x 1.5" W x 2.25" D (4.1 cm H x 3.8 cm W x 5.7 cm D).

ALSO AVAILABLE:

HU/W5084400 (formerly KR-ES)

Key Reader Escutcheon

The escutcheon, or trim piece, around the HU/W3130180 Wiegand key reader.

HU/W3131550 (formerly KR-MP)

Single Gang Key Reader Mount Plate

Single gang mounting kit for HU/W3130180 insertion reader. Brushed stainless steel.

HU/W2803001 (formerly TR-1)

Wiegand Turnstile Reader, Black

Wiegand turnstile card reader can be used exterior or interior. Compatible with all Wiegand cards except the SC-2-A and NC-1100008. Dimensions: 1.75" H x 7.0" W x 1.75" D (4.5 cm H x 17.8 cm W x 4.5 cm D).

ALSO AVAILABLE:

HU/W3141650 (formerly TR-1/CHROME)

Wiegand Turnstile Reader, Chrome

ADI Ordering Information

SC-2

Wiegand Card, Hot Stamp (26-Bit)

Wiegand 26-bit NC format card with printed number on card equal to encoded number. Compatible with all Wiegand readers except the CI-2 or NC-2802001. SC-2 cards feature Northern artwork and logo. Dimensions: 3.375" H x 2.125" W (8.573 cm H x 5.398 cm W).

ALSO AVAILABLE:

SC-1

Wiegand Card, No Hot Stamp (26-Bit)

Wiegand 26-bit NC format card with no numbers stamped on card. Compatible with all Wiegand readers except the CI-2 or NC-2802001. SC-1 cards feature Northern artwork and logo. Dimensions: 3.375" H x 2.125" W (8.573 cm H x 5.398 cm W).

PVC-W-3

Wiegand PVC Card, 2 Side Printable, Glossy (26-Bit)

Wiegand card (26-bit) with two glossy sides to print on using the PVC printer (can be used with all PVC printers). No hot stamped number. Compatible with all Wiegand readers except the CI-2. Dimensions: 3.375" H x 2.125" W (8.573 cm H x 5.398 cm W).

ALSO AVAILABLE:

PVC-W-4

Wiegand/Magnetic Stripe Card, 1 Side Printable, Hot Stamp, Glossy (26-Bit)

Wiegand card (26-bit) with one glossy side to print on using the PVC printer (can be used with all PVC printers). Printed number on card equals the encoded number. Compatible with all Wiegand readers except the CI-2. Dimensions: 3.375" H x 2.125" W (8.573 cm H x 5.398 cm W).

KI-2

Wiegand Key, Matching Number, Hot Stamp (26-Bit)

Wiegand 26-bit NC format insertion key. With printed number equal to encoded number. Compatible with all Wiegand key insertion readers. Dimensions: 3.25" H x 1" W (8.255 cm H x 2.54 cm W).

ALSO AVAILABLE:

KI-1

Wiegand Key, No Hot Stamp (26-Bit)

With no numbers stamped on key.

KI-1-CRS

Wiegand Key, Cross Reference, Hot Stamp (26-Bit)

With cross referenced hot stamped number.

Locks & Egress Devices

Through a strategic working relationship, Honeywell offers locking and egress solutions to fit any application. All products have been tested with Honeywell products and provide an excellent opportunity for dealers to increase their revenue on their next installation.

THIS SECTION INCLUDES:

Magnetic Locks

Door Strikes

Egress Devices

MAGNETIC LOCKS

Honeywell magnetic locks provide reliable and affordable locking options. Our magnetic locks have been tested with all Honeywell control panels to assure that they will work properly every time. Additionally, Honeywell locks include standard mounting templates that take the fear out of drilling into a door. All locks are UL Listed and meet the needs of most applications.

ADI Ordering Information

ML-8005

Single Door Small Magnet, 650 lbs

Designed to accommodate low door clearance or minimum security applications. Holding force: 650 lbs (295 kg) Current draw: 415 mA @ 12 VDC, 215 mA @ 24 VDC. Lock size: 1.625" H x 10" W x 1" D (4.2 cm H x 25.0 cm W x 2.5 cm D). Armature dimensions: 1.5" H x 7.25" W x .5" D (3.8 cm H x 18.5 cm W x 1.2 cm D).

ML8011-LC-US28

Magnetic Lock, 1,200 lbs

UL Listed magnetic door lock for a single door with 1,200 lbs (544 kg) holding force, operates on 12/24 VDC .2 A current draw and comes with a US28 (satin stainless) finish. Lock dimensions: 2.625" H x 10.5" W x 1.625" D (6.67 cm H x 26.67 cm W x 4.13 cm D). Armature dimensions: 2.5" H x 7" W x .375" D (6.35 cm H x 17.78 cm W x .95 cm D).

MB21031-US28

Z-Bracket for ML8011 Series Locks

Angle bracket for ML8011 series locks. US28 satin aluminum finish. Dimensions: 1" H x 1.5" W x .3125" D (2.54 cm H x 3.8 cm W x .795 cm D).

NC-MB21031US

MB21034-US28

Tamper-proof Z-Bracket for ML8011 Series Locks

Tamper-proof Z-bracket for in-swinging or out-swinging doors using the ML8011 series locks. US28 satin aluminum finish.

NC-MB21034US

MB21001-US28

Filler Plate for ML8011 Series Locks, 1/2" X 3/4"

1/2" x 3/4" or 3/4" x 1/2" filler plate for ML8011 series locks. US28 satin aluminum finish.

NC-MB21001US

MB21005-US28

Filler Plate for ML8011 Series Locks, 5/8" X 3/4"

5/8" x 3/4" or 3/4" x 5/8" filler plate for ML8011 series locks. US28 satin aluminum finish.

NC-MB2100528

ADI Ordering Information

NS5100

Dual Voltage Electric Door Strike, 3 Face Plates

Dual voltage electric door strike providing over 1,300 lbs. of holding force. Fail-secure/fail-safe field reversible. The NS5100 is .38A @ 12 VDC or .19A @ 24 VDC. Strike includes three face plates for use with hollow metal, wood or aluminum frames. Adjustable keeper and small backbox fit almost any application. Retrofit existing doors or lock replacements with included neoprene filler. Backbox: 3.375" H x 1" W x 1.345" D. Keeper pocket: 1.4375" H x .5" D x .6875-.8125" W (adjustable).

SMART-BAR

36" Electronic Smart Touch Sensor Bar Exit Device, 12/24 VDC, IR Beam Activation

The smart touch sensor bar provides a clean, contemporary design. The bar uses two redundant detection systems to sense an exit request. The first is a capacitance touch sense when a person touches the metal portion of the bar. The second is an invisible infrared light beam, which is directed across the front of the bar. The bar is constructed of heavy-duty aluminum extrusion. Requires 12/24 VDC linear power supply. Dimensions: 2.5" H x 36" W x 3.25" D (6.4 cm H x 91 cm W x 8.3 cm D).

0-000-361-01 (formerly IS310WH)

Curtain PIR, White

Request to exit PIR with up to 10' (3.05m) coverage. Two Form C contacts can be adjusted from .25 to 60 seconds. Temperature range: -20° to 120° F (-29° to 49° C). UL 294 Listed. Power requirements: 12/24 VAC or VDC. Dimensions 1.5" H x 6.25" W x 1.5" D (3.8 cm H x 15.8 cm W x 3.8 cm D).

ALSO AVAILABLE:

0-000-361-02 (formerly IS310BL)

Cable

Honeywell provides a full range of low-voltage cable options for access control. All cables have been tested to ensure contact integrity, high mechanical strength and long-lasting service. Honeywell cables are color-coded for device identification of panels, readers, communications and alarm circuits.

NC2441-TN

24AWG/4 Conductor Panel/Communications Cable, Tan – 1000'

1000' (304.8m) of tan PVC-jacketed cable used for RS485 communication interface to control panels. Four conductor twisted 24 AWG stranded copper wire with overall foil shield and a 24 AWG tinned copper drain wire. Nominal impedance of 120 ohms and nominal capacitance of 12.7 pf/ft.

ALSO AVAILABLE:

NC2441-TN-500

24AWG/4 Conductor Panel/Communications Cable, Tan – 500'

NC1861-BL

18AWG/6 Conductor Reader Cable, Blue – 1000'

1000' (304.8m) of blue PVC-jacketed cable used for readers and Wiegand style keypads (KP-11 or KP-13). Six conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

ALSO AVAILABLE:

NC1861-BL-500

18AWG/6 Conductor Reader Cable, Blue – 500'

NC1841-GY

18AWG/4 Conductor Reader Cable, Gray – 1000'

1000' (304.8m) of gray PVC-jacketed cable used for readers that do not require the LED line or use an external power supply at the reader. Can also be used for PIR power and contact. Four conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

ADI Ordering Information

NC18121-YL

18AWG/12 Conductor Keypad Cable, Yellow – 1000'

1000' (304.8m) of yellow PVC-jacketed cable used for the KP-10 or KP-12 keypads. Twelve conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

ALSO AVAILABLE:

NC18121-YL-500

18AWG/12 Conductor Keypad Cable, Yellow – 500'

NC1861-PK

18AWG/6 Conductor PVC Door Contact & PIR Cable, Pink – 1000'

1000' (304.8m) of pink-colored PVC-jacketed cable used for door contact, PIR and power for PIR. Six conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

NC1821-OR

18AWG/2 Conductor Power/Door Cable, Orange – 1000'

1000' (304.8m) of orange PVC-jacketed cable used for the power connections to the locking hardware. Two conductors twisted of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

NC2221-BR

22AWG/2 Conductor Alarm Cable, Brown – 1000'

1000' (304.8m) of brown PVC-jacketed cable used for alarm points. Two conductors of 22 AWG stranded copper wire with overall aluminum/mylar foil shield and a 24 AWG stranded tinned copper drain wire.

ADI Ordering Information

NCP2441-TN

24AWG/4 Conductor Panel/Communications Cable, Tan – 1000'

1000' (304.8m) of tan PVC-jacketed plenum cable used for RS485 communication interface to control panels. Four conductor twisted 24 AWG stranded copper wire with overall foil shield and a 24 AWG tinned copper drain wire. Nominal impedance of 120 ohms and nominal capacitance of 12.7 pf/ft.

NCP1861-BL

18AWG/6 Conductor Plenum Reader Cable, Blue – 1000'

1000' (304.8m) of blue PVC-jacketed plenum cable used for readers and Wiegand style keypads (KP-11 or KP-13). Six conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

NCP1841-GY

18AWG/4 Conductor Plenum Reader Cable, Gray – 1000'

1000' (304.8m) of gray-jacketed plenum cable used for readers that do not require LED line or use an external power supply at the reader. Also used for PIR power and contact. Four conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

NCP18121-YL

18AWG/12 Conductor Plenum Keypad Cable, Yellow – 1000'

1000' (304.8m) of yellow-jacketed plenum cable used for the KP-10 or KP-12 keypads. Twelve conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

NCP1861-PK

18AWG/6 Conductor Plenum Door Contact & PIR Cable, Pink – 1000'

1000' (304.8m) of pink-jacketed plenum cable used for door contact, PIR and PIR power. Six conductors of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

NCP1821-OR

18AWG/2 Conductor Plenum Power/Door Cable, Orange – 1000'

1000' (304.8m) of orange-jacketed plenum cable used for the power connections to the locking hardware. Two conductors twisted of 18 AWG stranded copper wire with overall aluminum/mylar foil shield and a 22 AWG stranded tinned copper drain wire.

NCP2221-BR

22AWG/2 Conductor Plenum Alarm Point Cable, Brown – 1000'

1000' (304.8m) of brown-jacketed plenum cable used for alarm points. Two conductors of 22 AWG stranded copper wire with overall aluminum/mylar foil shield and a 24 AWG stranded tinned copper drain wire.

Communications & Accessories

Honeywell provides a wide variety of communication devices and accessories that seamlessly integrate with our access control product lines.

ADI Ordering Information

N-485-PCI-2 **RS485 PC Interface**

The N-485-PCI-2 is an RS485 interface located between the computer and the access control panels. It converts the RS232 data coming from the PC into RS485 data. Comes with a 3' (0.9 m) 9-pin cable for connection to the PC, cable can be extended to within RS232 maximum distance. For use with N-485-API-2, N-1000-III, N-1000-IV, NS2 or NS2+ panel. Dimensions: 5.5" H x 3.875" W x 2" D (13.97 cm H x 9.843 cm W x 5.08 cm D). ALL 485 UNITS IN THE SYSTEM MUST HAVE THE SAME VERSION FIRMWARE.

ALSO AVAILABLE:

N-485-HUB-2 **RS485 Modem Interface**

The N-485-HUB-2 converts RS232 data coming from the modem into RS485 data. ALL 485 UNITS IN THE SYSTEM MUST HAVE THE SAME VERSION FIRMWARE.

N485PCI2L **RS485 Interface for LANSRLU1**

Designed specifically for use with the LANSRLU1 network converter. The N485PCI2L is an RS485 interface located between the LANSRLU1 and the access control panels. Converts RS485 signal (from panel) to RS232 with cable for direct connection to network converter. ALL 485 UNITS IN THE SYSTEM MUST HAVE THE SAME VERSION FIRMWARE.

LANSRLU1 **RS232 to LAN Converter (10/100)**

This device server enables management of serial devices over IP-based Ethernet networks and easily lets you replace limited distance, point-to-point serial connections. Converts RS232 signal into 10Base-T (10 Mbps) or 100Base-TX (100 Mbps). Supplied with 110 VAC power adapter. Dimensions: 3.5" H x 2.5" W x .9" D (90 mm H x 64 mm W x 23 mm D).

LAN485KIT **Kit with LANSRLU1 & N485PCI2L**

Includes LANSRLU1 and N485PCI2L.

FC485 **Multimode 2 Strand 485-Fiber Transceiver with Transformer**

The FC485 provides fast RS485 to fiber [2 strand 62.5 micron multimode – max 1 mile (~1600m)] conversion applications at any baud rate between 300 to 115.2K. Auto-baud capability requires no resistors or jumpers to set. Jumpers for 120 ohm bias and line termination are provided. The unit is enclosed and transformer is included. Use NC2441-TN or NCP2441-TN wire. Dimensions: 3.25" H x 5.5" W x 1.375" D (8.25 cm H x 13.9 cm W x 3.49 cm D).

M-56K

56K External Modem

High speed modem for N-485-HUB-2 interface. Transformer included. Dimensions: 3.75" H x 6.63" W x 1.25" D (9.52 cm H x 16.82 cm W x 3.17 cm D).

ADI Ordering Information

NC-M56K

SHM-B-ASYNC

Short Haul Modem

Short haul modem for communicating RS232 across two twisted pairs of 24-26 AWG unshielded telephone cable, insulated by polyethylene with a mutual capacitance of 0.083 mfd/mile. Transmission distance up to 4 miles (6.4 km) at 2400 baud or 1 mile (1.6 km) at 19,200 baud are achievable using specified wire. Requires two SHM-B-ASYNC, one at each end. Transformer included. Dimensions: 1.4" H x 4.25" W x 4.5" D (3.8 cm H x 10.9 cm W x 11.7 cm D).

NC-SHMBASYNC

SERIAL PORT EXPANDERS

NTEXPDI4

4-Port Communication Board

Used for WIN-PAK 2.0 or higher to add four RS232 communication ports. The NTEXPDI4 includes a PCI expansion board and a four port RJ45 connector. You must order the optional RJ45 connecting cable assemblies as required for your installation. The optional cables are NTEXPC25 used for C-100-A1 and external modems or NTEXPC9 used for N-485-PCI-2 applications.

NC-NTEXPDI4

ALSO AVAILABLE:

NTEXPDI8

8-Port Communication Board

Used for WIN-PAK 2.0 or higher to add eight RS232 communication ports. The NTEXPDI8 includes a PCI expansion board and an eight port RJ45 connector. You must order the optional RJ45 connecting cable assemblies as required for your installation. The optional cables are: NTEXPC25 used for C-100-A1 and external modems or NTEXPC9 used for N-485-PCI-2 applications.

NC-NTEXPDI8

NTEXPDI16

16-Port Communication Board

Used for WIN-PAK 2.0 or higher to add 16 RS232 communication ports. The NTEXPDI16 includes a PCI expansion board and a 5' DB44 EBI cable used to connect the expansion board to the 16-port RJ45 external cable. You must order the optional RJ45 connecting cable assemblies as required for your installation. The optional cables are NTEXPC25 used for external modems or NTEXPC9 used for N-485-PCI-2 applications.

NC-NTEXPDI16

ADI Ordering Information

NTEXPDI32

32-Port Communication Board

Used for WIN-PAK 2.0 or higher to add 32 RS232 communication ports. The NTEXPDI32 includes a PCI expansion board and a 5' DB44 EBI cable used to connect the expansion board to the 32-port RJ45 external cable. You must order the optional RJ45 connecting cable assemblies as required for your installation. The optional cables are NTEXPC25 used for external modems or NTEXPC9 used for N-485-PCI-2 applications.

NTEXPDI64

64-Port Communications Kit

Used for WIN-PAK 2.0 or higher to add 64 RS232 communication ports in a Windows NT environment (will not work in a Windows 9x environment). The NTEXPDI64 includes a PCI expansion board, 5' DB44 EBI cable used to connect the expansion board to the first 16-port RJ45 external module and three additional 16" cables to attach the second, third and fourth 16 port modules and a power supply. You must order the optional RJ45 connecting cable assemblies as required for your installation. The optional cables are NTEXPC25 used for C-100-A1 and external modems or NTEXPC9 used for N-485-PCI-2 applications.

NTEXPCM

RJ45 to 25-Pin Modem Cable

NTEXPC9

RJ45 Cable and 9-Pin Shell Assembly for N-485-PCI-2

RJ45 cable and 9-pin shell assembly for use with N-485-PCI-2.

NTEXPC25

RJ45 Cable and 25-Pin Shell Assembly for Modems

RJ45 cable and 25-pin shell assembly for use with modems and C-100-A1.

CBLE100

RJ45 Patch Cable, 100 ft.

CBLE200

RJ45 Patch Cable, 200 ft.

USBXT

USB Extender, 150 ft.

Power Supplies

Honeywell power supplies are offered specifically to support access control and electric locking hardware. The power supplies/chargers convert 115 VAC/60 Hz into a power limited, field-selectable continuous power output. These power supplies are UL Listed for access control (UL294), fire alarm (UL1481) and burglar alarm installations (UL603), and conform to NEC requirements. Distribution modules capable of distributing one power source across multiple fused outputs and a fire panel interface make ordering and installation more convenient.

THIS SECTION INCLUDES:

Auxiliary Power Modules

Power Distribution Modules

Transformers

Batteries

ADI Ordering Information

HPS123

6/12/24 VDC 2.5A or 1 A Power Supply, Enclosure & Battery

Converts 115 VAC/60 Hz into 6/12 VDC @ 2.5 A of continuous supply current (24 VDC @ 1A). Comes with a plug in 24V 50 VA transformer, 5 AH battery, battery leads and hardware. Filtered and electronically regulated output. Built-in charger for sealed lead acid or gel type batteries. Automatic switchover to stand-by battery. Circuit breaker battery protection. AC input and DC output LED diagnostic indicators. For 24 VDC, an additional BAT-3 must be ordered separately. Enclosure dimensions: 10" H x 10" W x 4.5" D (25 cm H x 25 cm W x 11.5 cm D).

ALSO AVAILABLE:

HPS125

6/12/24 VDC 4 A or 2.5 A Power Supply, Enclosure & Battery Converts 115 VAC/60 Hz into 6/12 VDC @ 4 A of continuous supply current (24 VDC @ 2.5 A). For 24 VDC, an additional BAT-3 must be ordered.

HP300ULX

12/24 VDC 2.5 A Power Supply and Enclosure

Converts 115 VAC/60 Hz into a 12/24 VDC @ 2.5 A single class 2 rated power limited supply. AC fail, low battery and battery presence monitoring. Enclosure accommodates up to two 12 AH batteries. Dimensions: 13" H x 13.5" W x 3.25" D (33 cm H x 34.3 cm W x 8.3 cm D).

ALSO AVAILABLE:

HP400ULX

12/24 VDC 4 A Power Supply and Enclosure

Converts 115 VAC/60 Hz into a 12/24 VDC @ 4 A single class 2 rated power limited supply.

HP600ULX

12/24 VDC 6 A Power Supply and Enclosure

Converts 115 VAC/60 Hz into a 12/24 VDC @ 6 A single class 2 rated power limited supply.

HP300ULM

12/24 VDC 2.5 A Power Supply, Enclosure and HPMOM5

Converts 115 VAC/60 Hz into a 12/24 VDC @ 2.5 A single class 2 rated power limited supply. Includes the HPMOM5 interface which features fire alarm panel or access control system NO, NC or polarity reversal trigger input and six individually protected PTC outputs rated at 2.5 A each. AC fail, low battery and battery presence monitoring. Enclosure accommodates up to two 12 AH batteries. Dimensions: 13" H x 13.5" W x 3.25" D (33 cm H x 34.3 cm W x 8.3 cm D).

ADI Ordering Information

NC-HP300ULM

ALSO AVAILABLE:

HP400ULM

12/24 VDC 4 A Power Supply, Enclosure and HPMOM5

Converts 115 VAC/60 Hz into a 12/24 VDC @ 4 A single class 2 rated power limited supply.

NC-HP400ULM

HP600ULM

12/24 VDC 6 A Power Supply, Enclosure and HPMOM5

Converts 115 VAC/60 Hz into a 12/24 VDC @ 6 A single class 2 rated power limited supply.

NC-HP600ULM

HP600ULACM8

12/24 VDC 6 A Power Supply, Enclosure and HPACM8

Converts 115 VAC/60 Hz into a 12/24 VDC @ 6 A single class 2 rated power limited supply. Includes the HPACM8 interface which features fire alarm panel or access control system NO, NC or polarity reversal trigger input and eight independently operated and individually protected outputs rated at 2.5 A each. AC fail, low battery and battery presence monitoring. Enclosure accommodates up to two 12 AH batteries. Dimensions: 13" H x 13.5" W x 3.25" D (33 cm H x 34.3 cm W x 8.3 cm D).

NC-HP600ULACM8

ADI Ordering Information

HPD4

4 Fused Output Distribution Module

Distributes one low voltage power input to 4 individually protected outputs. Each circuit uses automotive style fuses rated 3 A @ 35 VDC (up to 5 A fuses may be used) and the board is protected with a 5 A main fuse. Handling up to 28 VAC/VDC, this board has a power switch, surge protected outputs, power LED indicator, and diagnostic LEDs per circuit. Mounts with included foam backed tape or optional snap track (HST34). Dimensions: 3" H x 4.3" W x 1.0" D (7.6 cm H x 11 cm W x 2.5 cm D).

ALSO AVAILABLE:

HPD4CB

4 PTC Output Distribution Module

Includes individual auto-reset type PTCs rated 2.5 A @ 30 VDC each instead of fuses.

HPD8

8 Fused Output Distribution Module

These convert one low voltage power input to 8 individually protected outputs. Handling up to 28 VAC/VDC, this board has a power switch, surge protected outputs, power LED indicator, and diagnostic LEDs per circuit. Each circuit is protected with automotive style fuses rated 3 A @ 35 VDC (up to 5 A fuses may be used) and the board has a 5 A main fuse. Mounts with included foam backed tape or optional snap track (HST34). Dimensions: 3" H x 4.3" W x 1.0" D (7.6 cm H x 11 cm W x 2.5 cm D).

ALSO AVAILABLE:

HPD8CB

8 PTC Output Distribution Module

Each circuit is protected with auto-reset PTCs rated 2.5 A @ 30 VDC instead of fuses.

HPMOM5

6 Fused Output Distribution with Fire Panel Interface

This multi-output power distribution module converts one non-power limited 12 VDC or 24 VDC voltage input to 6 power limited outputs. Each output can be used to power magnetic locks, electric strikes, magnetic door holders, etc. Outputs switch together and operate both fail-safe and fail-secure. Activation is through normally open or normally closed supervised input or the polarity reversal from a fire alarm control panel. A Form C dry output relay will enable HVAC shutdown, elevator recall or trigger auxiliary devices. Class 2 current rated at 2.5 A per output. Diagnostic LEDs per circuit. Power and input trigger LEDs. Power fail supervision relay is Form C rated 1 A @ 28 VDC/115 VAC. Dimensions: 5.3" H x 3.5" W x 1" D (13.5 cm H x 8.9 cm W x 2.5 cm D).

HPACM8

8 Fused Output Distribution with FACP Interface

This distributes one 12 to 24 VAC or DC input over 8 independently controlled fuse protected outputs. The outputs can also be configured as dry Form C contacts. Activated by an open collector sink or normally open dry trigger input from an access system, card reader, keypad, push button, PIR, etc. Outputs operate both fail-safe and fail-secure and will power magnetic locks, electric strikes, magnetic door holders, etc. Powered by either one common source or by two independent sources, one for board power and the other for accessory power. The FACP interface can trigger emergency exit, monitoring, HVAC shutdown, elevator recall or other auxiliary devices. The fire alarm disconnect is configurable for all affected or 50/50 mode. Dimensions: 8" W x 4.5" H x 1.25" D (20.3 cm W x 11.4 cm H x 3.8 cm D).

ADI Ordering Information

NC-HPACM8

ALSO AVAILABLE:

HPACM4

4 Fused Output Distribution with FACP Interface

Distributes one 12-24 VAC or VDC input over 4 independently controlled fuse protected outputs.

NC-HPACM4

NC-X2

X-2

12 VAC Transformer

Transformer that converts 120 VAC to 12 VAC. 40 VA rating. AC power supply for the following legacy devices: N-501-LB, N-500-LB-B, N-500-PCM, N-1000-II, N-1000-II-X, and C-100-A1.

NC-X4

X-4

16.5 VAC 50 VA Transformer

16.5 VAC 50 VA plug in transformer. For N-1000-III/IV, NS2, NS2+, NX4S1 and replacement transformer for PS-1-12E.

ALSO AVAILABLE:

X4CAN

CSA Approved Transformer

CSA Approved 16.5 VAC 50 VA plug-in transformer for N-1000-III, N-1000-IV, NS2, NS2+, NX4S1 control panels.

NC-X4CAN

NC-S4

S-4

Suppressor Kit

Provides proper protection against electrical spikes caused by collapsing electrical fields. One suppressor kit is required for every electrical switching device connected through a relay contact on the N-1000-II, N-1000-III, N-1000-IV, NS2 and NS2+ control panels.

NC-712BNP

712BNP

12V, 7 AH Backup Battery

12V battery for the NetAXS and PRO2200 panels.

NC-BAT3

BAT-3

12V, 4 AH Backup Battery

12V battery for the N-1000-III, N-1000-IV, NS2, NS+ series of panels.

NC-BAT1

BAT-1

8V Battery for N-1000-II

Replacement 8V operational battery backup for the N-1000-II control panels. The BAT-1 provides power to maintain full control panel functions during AC power loss (for up to 3 hours).

NC-BAT2

BAT-2

Lithium Battery for N-1000

Replacement lithium battery. Provides backup power for memory retention on the N-1000-II control panels.

Services

In addition to leading-edge products, Honeywell Access Systems offers a wide variety of services that help dealers improve margin and grow their business. From on-site support, training and database services to our Web-based Customer Information Management (CIM) system, Honeywell delivers a broad spectrum of programs that offer unrivaled dealer support and investment protection.

THIS SECTION INCLUDES:

Customer Information Management System (CIM)

Factory and On-Site Training

Database Services

On-Site Services

Technical Support

CUSTOMER INFORMATION MANAGEMENT SYSTEM (CIM)

Honeywell Access Systems' Customer Information Management (CIM) system is an innovative eBusiness solution that empowers users to optimize the profitability and productivity of their organizations through anytime online access to critical information and interactive management tools. The CIM can be accessed via the Internet at **www.hascim.com**.

To obtain your log-on credential, please contact your regional sales manager or inside sales representative. They are ready to provide you with the means to access a wealth of information!

Once in the CIM system you can obtain:

- Listings of all interactions with the Honeywell Customer Support Group to track the status of open technical support call tickets, databases and/or PCs sent in for repair and card tests
- Reports to show business trends and activity of listed job sites
- Information about the Honeywell Access Systems' technical library, knowledge base, and drivers
- Product information
- Product technical drawings

The CIM can also be used as a centralized resource for requesting and scheduling on-site services, enrolling in training courses, participating in surveys, taking certification exams online and much more.

FACTORY AND ON-SITE TRAINING

Registration and Schedules

Training registration and schedules can be found on the CIM. New dealers can contact their Honeywell sales representative for further details.

Classes

Because we limit the size of our classes in order to ensure personal hands-on training, early registration is highly recommended. All dates and locations are subject to change. All registrations are processed through the CIM Web site.

Audience

Installation technicians, service technicians and project managers comprise the majority of students who attend our training classes.

Certification Credentials

Students who attend and pass a WIN-PAK or PassPoint course exam will receive a Training Certification ID card in the mail. This credential may be needed at some sites prior to placing a request to Honeywell Access Systems for technical support.

Factory Training

PART NUMBER	DESCRIPTION
FCTRWP05	Factory Training – WIN-PAK SE
FCTRWPP05	Factory Training – WIN-PAK PE
FCTRNSTAR	Factory Training – NStar
FCTRPPPOINT	Factory Training – PassPoint
FCTRPANEL	Factory Training – Panel Hardware

Pricing

Pricing for factory and on-site training can be found on the CIM Web site at **www.hascim.com**. You will be required to provide a credit card or purchase order number for training class registration.

Online Testing

Web-based product certification courses will be available in the CIM under Training Options. Upon completion of the course, students will be directed via e-mail to an on-line testing site where a final examination will be administered which measures the student's comprehension of the course material. A passing grade must be achieved to obtain product certification. Additional information about course enrollment, testing and fees can be found in the CIM.

On-Site Training

PART NUMBER	DESCRIPTION
OSTWP05	On-Site Training – WIN-PAK SE
OSTWPP05	On-Site Training – WIN-PAK PE
OSTNSTAR	On-Site Training – NStar
OSTPPOINT	On-Site Training – PassPoint
OSTRPANEL	On-Site Training – Panel Hardware
OSTCUSTTR	On-Site Training – Custom Training

DATABASE SERVICES

Honeywell Access Systems provides a variety of database services including repairs and upgrades, custom reports and card tests for the Honeywell Access Systems product line. Expedited services are also available. All database services, whether normal or expedited, are available at the factory only. Contact hassupport@honeywell.com for further information.

PART NUMBER	DESCRIPTION
SRVCRDENCODNC	Encoding of information
SRVCRDTESTNC	Card test services
SRVHRSUPPNC	Service telephone hourly support
SRVCSTAPPNC	Custom I/O & application
SRVINPCREPAIRNC	CPU to Honeywell Access Systems for repair
SRVDBRPNC	WIN-PAK / NStar database repair (Excludes N-750 and PassPoint)
SRVDBUPNC	WIN-PAK / NStar database upgrade (Excludes N-750 and PassPoint)
SRVEXPDITNC	Expedited database service, in addition to database repairs and upgrades
SRVHRSUPPNC	Service support – hourly
SRVINPCREPAIRNC	CPU to Honeywell Access Systems for repair
SRVINTECHNC	Special applications setup for customer

ON-SITE SERVICES

Honeywell Access Systems' on-site services offer great value to our customers. Our highly trained staff of regional technical managers (RTMs) offers two different types of on-site services:

- **On-Site Troubleshooting Assistance** – If a job site has developed a problem that proves too complex for the dealer to handle without assistance, a Honeywell RTM may be dispatched to the job site after an assessment is made by a Honeywell inside technical support professional and the customer. Please refer to the pricing summary for current rates.
- **Planned On-Site Commissioning** – An RTM is available to visit an end user site or customer location to assist with system commissioning. Training, troubleshooting, diagnostics, consulting and advanced level programming are among the commissioning-related services that a Honeywell RTM can provide.

Our system commissioning service is designed to assist the dealer with the process of turning over a complete security management system project using Honeywell products. Honeywell Access Systems assumes that installation is essentially complete prior to an on-site visit. Although the Honeywell RTM performs primarily system specific tasks, we also offer the flexibility to cover items outside of our normal scope of services. This allows us to provide custom solutions that best meet the needs of each customer. Please refer to the pricing summary for current rates. Planned on-site services may be arranged by visiting the Honeywell Access Systems' Customer Information Management (CIM) Web site at www.hascim.com. After navigating to the site, click on the Dealer link and the site will direct you to the login screen. If you do not have ready access to the CIM, please contact Honeywell Customer Service and Support at (800) 467-5875 for scheduling and pricing.

PART NUMBER	DESCRIPTION
OSSNCFD	1 day (eight hours) on-site support only (not to include training classes)
OSSNCHD	1/2 day (four hours) on-site support only (not to include training classes)
OSSHASYSOP	System Optimization (WIN-PAK and/or LobbyWorks)

The Honeywell Technical Support Department's mission is to assist Honeywell dealers with issues they may encounter with Honeywell products. We are proud of our technical support team, and we strive each day to be the best.

Who is Supported

The Honeywell technical support team supports the customers of Honeywell, and we do not make it a policy to assist the end user (site) directly. An authorized Honeywell dealer must be involved in all support calls unless agreement is reached in advance with Honeywell management.

How to Reach Honeywell Technical Support

The Customer Service & Technical Support Center can be reached at:

- (800) 467-5875
- hassupport@honeywell.com
- www.honeywellaccess.com

We are staffed between 8:00am and 8:00pm EST weekdays (except for Honeywell recognized holidays). At any time, voice mail is available for leaving messages, which will be answered no later than the next workday.

If your problem isn't time sensitive, consider sending an e-mail message to **hassupport@honeywell.com**. E-mail is checked at least once an hour between 8:00am and 8:00pm EST, Monday through Friday to ensure a timely response to these requests. Except as a secondary notification, please do not use e-mail to notify Honeywell of emergency situations. If you want a telephone response, be sure to include the telephone number you want us to use. A Honeywell representative can research your problem before responding if you send a detailed description of your problem.

Over the years we have compiled massive amounts of information about Honeywell hardware and software issues and posted it at **www.honeywellaccess.com**. There is an excellent chance that some or all of your questions can be answered there.

Calls to Honeywell Tech Support are logged in a call tracking database system. In cases where a problem has not been appropriately resolved in a reasonable or agreed timeframe, additional discussions and troubleshooting sessions are held to develop and implement the correct solution. Additionally, monitoring the requests is a powerful tool for tracking trends and ensuring that appropriate staff and technology are accessible to callers.

What is Not Supported

In general, any services that require "touching" the local systems are not provided by Honeywell Tech Support. While it is up to the dealer to determine the need for technical support from Honeywell and to prioritize the need, the following services will not be provided and generally fall into the domain of dealer technical support staff or others:

- Hardware installation and new computer setups
- Operating system and network interface installation
- Installation of non-Honeywell products, including printers
- Desktop support and training
- Coding creation and maintenance
- Deletion of data
- Scheduling all dealer warranty/repair work
- Customizing systems
- Backing up systems
- Removing viruses
- Reconfiguring systems in the event of a critical error

Additional Information

Honeywell's wide assortment of products allows dealers to tailor a complete access control system for any facility. This section includes a Product Compatibility Chart to simplify the selection of components for application and provides basic instructions on how to configure the system.

** Limited compatibility for Wiegand data. Provide sample cards to factory for testing and compatibility.

Access Control

- Cardholder capacity: Unrestricted with WIN-PAK® SE software host grant feature
- Operators: One or five concurrent
- Time zones: Unrestricted
- Holidays: 32 (2 types with NS2+)
- Server client protocols: TCP/IP
- On-line transaction storage: Limited only by drive space
- Elevator control: Up to 24 floors and 32 definitions with N-1000 Control Panel
- Operators/passwords: Unlimited
- 40 User-defined cardholder data fields per account
- First valid card in unlocks door/ activates time zone with NS2+
- Up to 32 access levels can be applied to a card (multiple access level mode)

Alarm Monitoring

- Monitor points: 126,480 per system
- Sound files played per event status
- Monitor 16 live cameras in a single view
- VISTA 128FBP/250FBP (optional)

Reporting and Operating

- Operator instructions: Definable per alarm point and state
- Reports:
 - Scheduled Reports-Cardholder or History
 - Cardholder or Number
 - Device (Panels, Readers, Comm)
 - Operator actions
 - Database reports
 - Email reports in HTML format
- Graphical map import: WMF

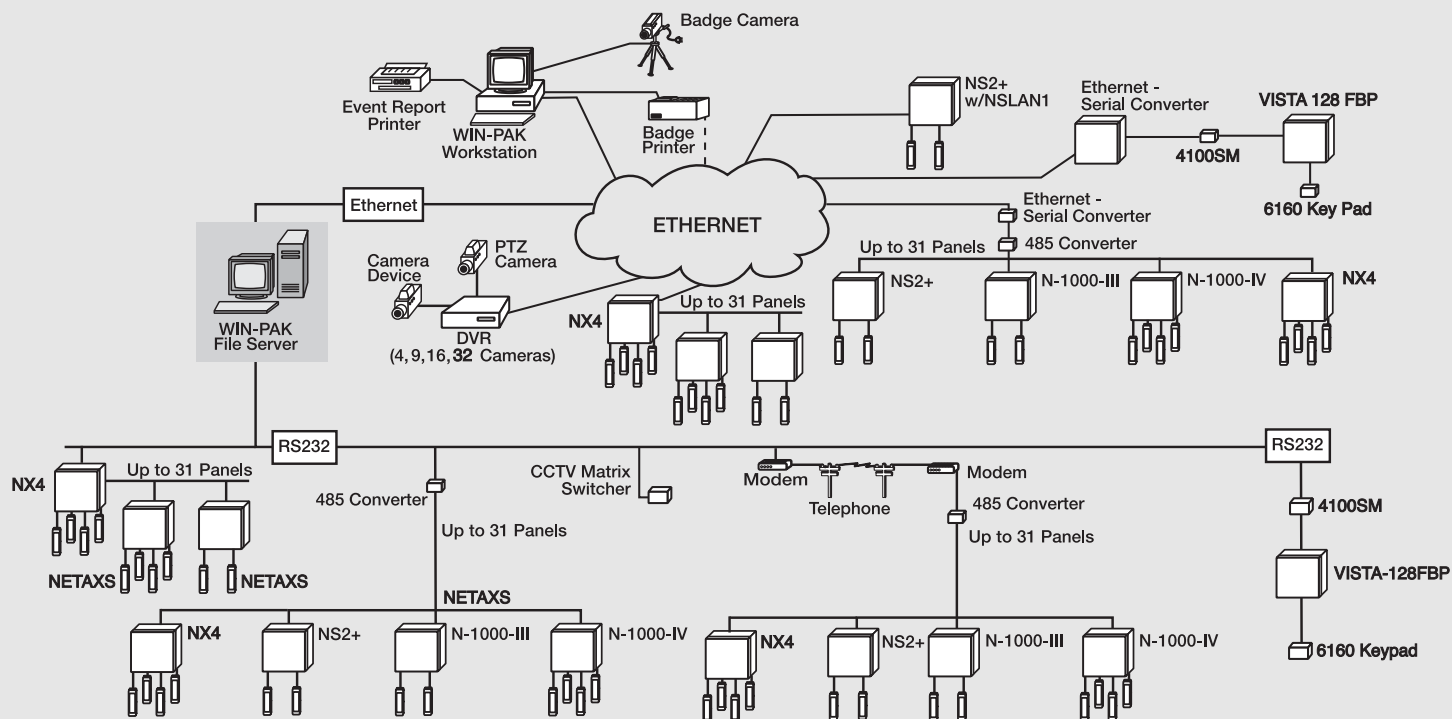

Communications

- Supports direct TCP/IP connection to control panels eliminating the need for costly multi-port boards
- Controllers: 7,905 hardwired per system
- Readers: 31,620 per system

Other

- Database engines: MSDE 2000 standard, SQL Server 2005, SQL Server 2000 (optional)
- Door control modes: Shunt, unshunt, lock, unlock, pulse, timed pulse
- Door configuration: Card only, Card and PIN, card or PIN and keypad only
- Multi-threaded application capable of utilizing multiple processor servers

WIN-PAK SE CONFIGURATION

Access Control

- Cardholder capacity: Unrestricted with WIN-PAK® PE software host grant feature
- Communication Servers: Unrestricted
- Operators: Unrestricted
- Supports multiple accounts allowing separate access to the card database, badge layout, operator access, reporting and account sensitive operator rights
- Time zones: Unrestricted
- Holidays: 255 per PRO2200
- Server client protocols: TCP/IP
- On-line transaction storage: Limited only by drive space
- Elevator control: Up to 112 floors and 255 definitions with PRO2200 Control Panel
- Operators/passwords: Unrestricted
- 40 User-defined cardholder data fields per account

Communication Server

- Multiple communication servers on LAN/WAN provide distributed networking capabilities, improving system performance and capacity
- Supports direct TCP/IP connection to control panels eliminating the need for costly multi-port boards
- Controllers: 7,905 hardwired per communication server
- Readers: 31,620 per communication server

Alarm Monitoring

- Monitor points: 261,120 per communications server with PRO2200 Control Panel
- Sound files played per event status
- Monitor 16 live camera views
- VISTA 128FBP/250FBP (optional)

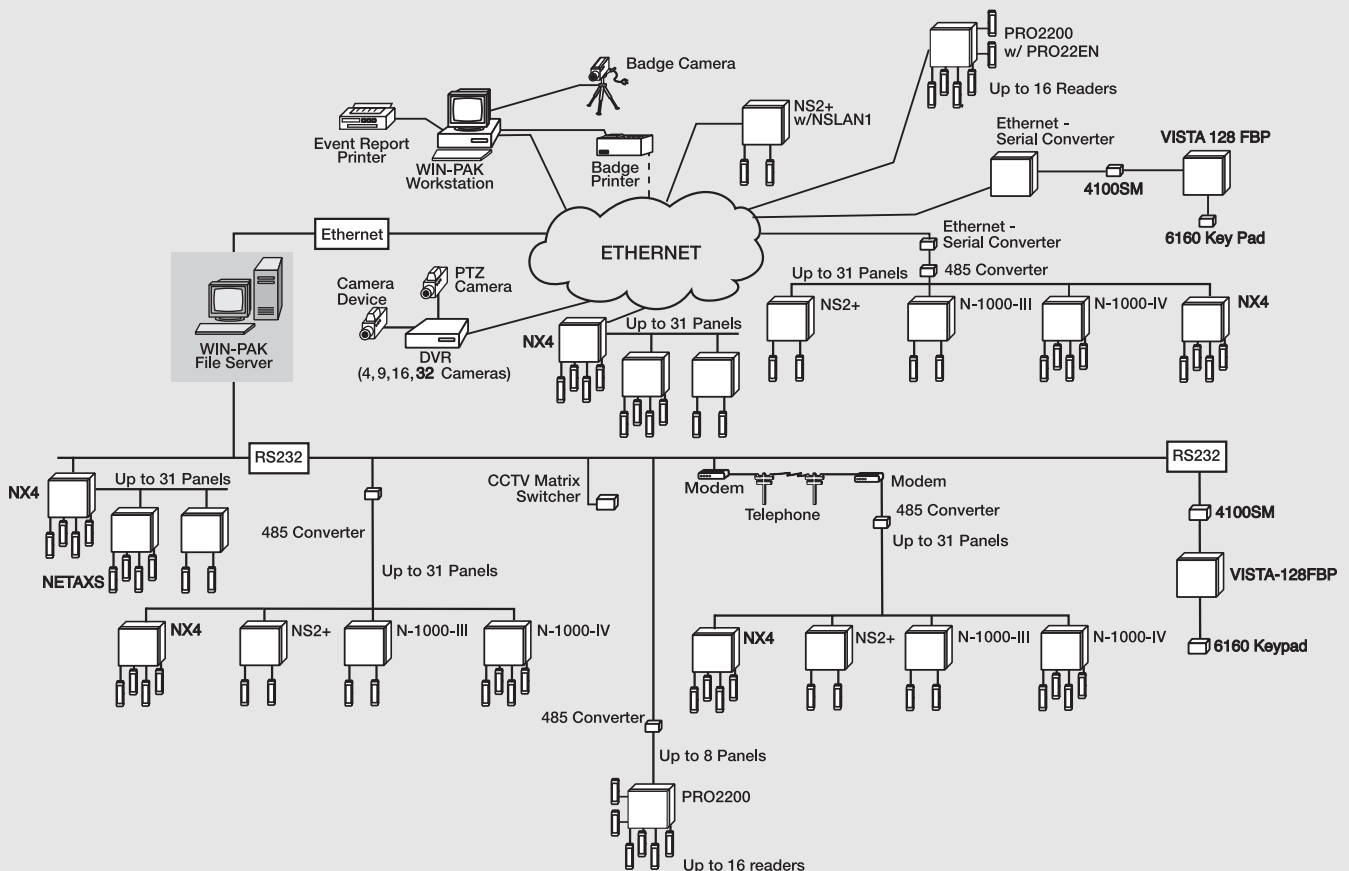

Reporting and Operating

- Operator instructions: Definable per alarm point and state
- Reports:
 - Scheduled Reports-Cardholder or History
 - Cardholder or Number
 - Device (Panels, Readers, Comm)
 - Operator actions
 - Database reports
 - E-mail reports in HTML format
- Graphical map import: WMF

Other

- Database engines: MSDE 2000 standard, SQL Server 2005, SQL Server 2000 (optional)
- Door control modes with PRO2200 Control Panel: Disable, unlock, lock, no access egress only, facility code only, card only, card and PIN, card or PIN, or PIN only
- Multi-threaded application capable of utilizing multiple processor servers

WIN-PAK PE CONFIGURATION

Web Features

- Built-in Web browser interface
- Real time system control
- Live remote monitor of alarms and events
- Detailed report viewer
- Audit trail and customized reporting
- Add/remove users
- Live monitoring of system events
- Alarm annunciation status bar
- Manual control of readers, locks and inputs/outputs
- Multiple user connections per system
- Special functions
 - N-Man rule
 - Supervisor rule
 - Escort rule
 - Limited use (number of uses or dates)
- Automatic clock synchronization
- High-security with SSL level encryption

System Communications

- Multiple communication options
 - On-board Ethernet
 - Built-in RS485 (does not require N-485-PCI-2)
 - Built-in RS232

System Capacities

- 10,000 cardholders
- 25,000 events/buffers
- 4 readers, expandable up to 124
- 14 supervised inputs
 - Add up to 64 additional inputs
- 8 SPDT, relay outputs
 - Add up to 64 additional outputs
- Motorola Coldfire 32-bit processor
- Flash programming for firmware revision updates
- Temperature: 35-110° F (-2-43° C)
- Humidity: 0 to 85% RHNC

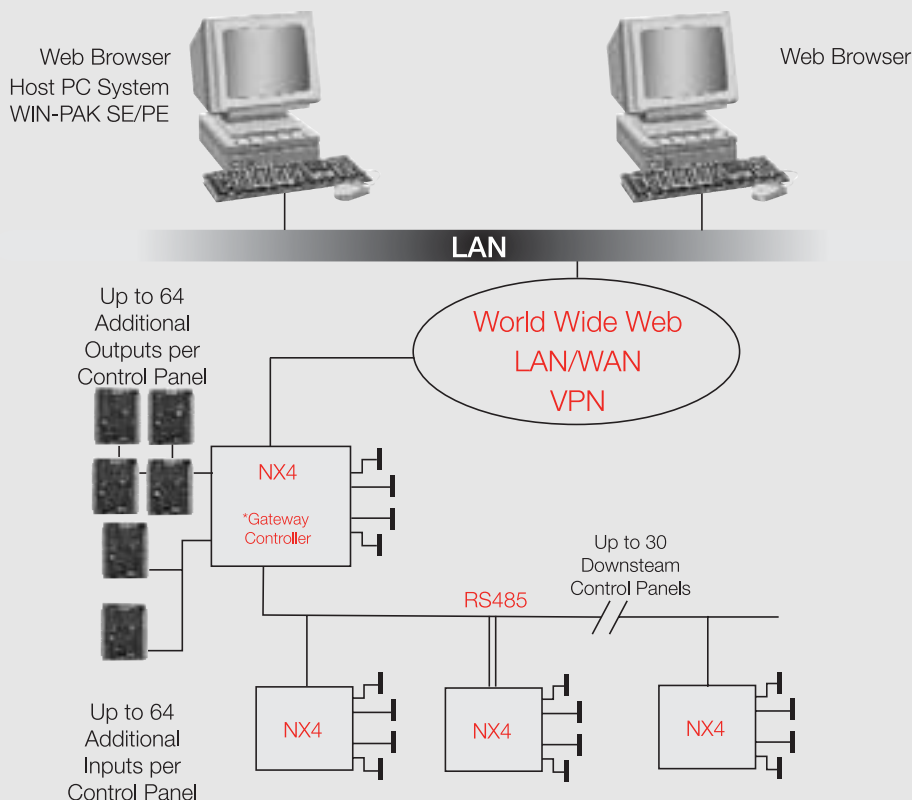

NetAXS Enclosure Options

- Large Enclosure
 - NetAXS 4 door control panel
 - 24 VDC, 6 A power supply
 - Distributed relay board
 - 24V battery backup
 - Noise suppression filter
 - Convenient 2-Wire lock power
 - Reader power
 - Auxiliary device power
- Small Enclosure
 - NetAXS 4 door control panel
 - 12 VDC battery backup
 - 16.5 VAC, 50 VA transformer
 - Standard enclosure

Web browser interface

- Internet Explorer
- Netscape Navigator
- Mozilla Firefox

NETAXS™ STANDALONE WEB CONFIGURATION

* Any NX4 panel can be configured as a Gateway Controller.

Hybrid System Features

- Local and remote managed access control
- WIN-PAK PC Hosted
 - Provides full featured access control through local software
 - Complete access control functionality
- Web Browser Interface
 - Remote system access to embedded NetAXS Web server
 - Remote monitoring and management
 - Full detail reporting
 - Manual door control
 - Input and output control

System Communications

- Multiple communication options
 - On-board Ethernet
 - Built-in RS485 (does not require N-485-PCI-2)
 - Built-in RS232

System Capacities

- 10,000 cardholders
- 25,000 events/buffers
- 4 readers, expandable up to 124
- 14 supervised inputs
 - Add up to 64 additional inputs
- 8 SPDT, relay outputs
 - Add up to 64 additional outputs
- Motorola Coldfire 32-bit processor
- Flash programming for firmware revision updates
- Dedicated panel tamper alarm and power fall
- Real time clock: Geographic time zone support
- Daylight Saving Time
- Temperature: 35 -110° F (-2- 43 °C)
- Humidity: 0 to 85% RHNC
- UL 294 listing / CE Certification

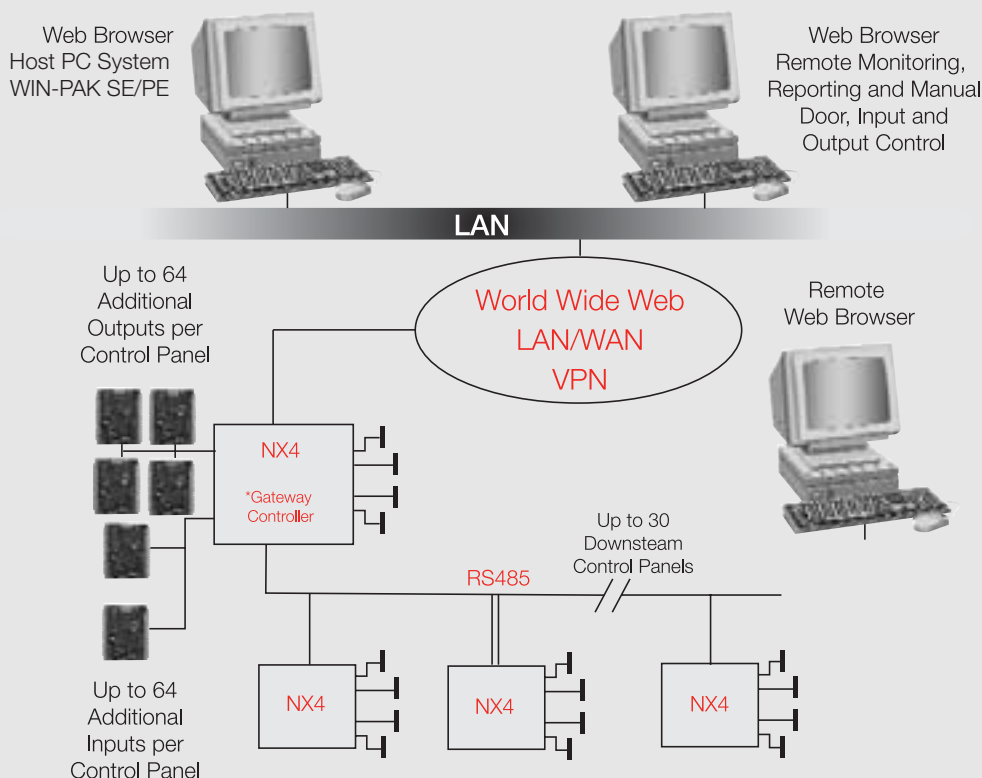

NetAXS Enclosure Options

- Large enclosure
 - NetAXS 4 door control panel
 - 24 VDC, 6 A power supply
 - Distributed relay board
 - 24V battery backup
 - Noise suppression filter
 - Convenient 2-wire lock power
 - Reader power

NETAXS™ HYBRID WEB CONFIGURATION

* Any NX4 panel can be configured as a Gateway Controller.

NSTAR SERIAL COMMUNICATION

Standard configuration uses two communication ports. Control one NS2 control panel per communication port.

A Part #CBL50 - RS232 50' Serial Cable

NSTAR RS485 COMMUNICATION

Standard configuration uses two communication ports for two loops. Control 31 NS2 control panels per loop, 62 NS2 panels total.

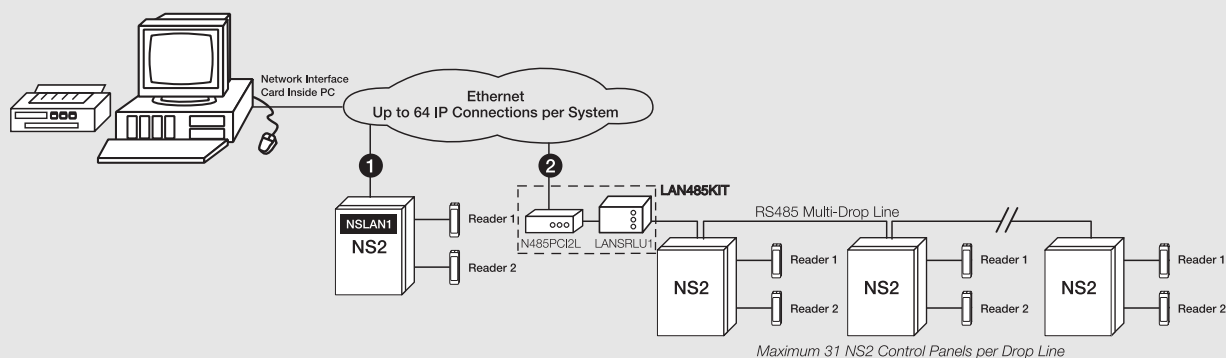

Maximum 31 NS2 Control Panels per Drop Line
Add Second COM Port and RS485 Interface for Additional 31 NS2 Control Panels

NSTAR ETHERNET COMMUNICATION

Where one NS2 panel is used per IP loop, communicate via optional on-board Ethernet interface (NSLAN1). One NS2 per NSLAN1.
Where multiple NS2 panels are required per IP loop, communicate using RS485 communications (N485PCI2L & LANSRLU1).

- 1 Where one NS2 panel is used per IP loop, communicate via optional on-board Ethernet interface (NSLAN1). One NS2 per NSLAN1.
- 2 Where multiple NS2 panels are required per IP loop, communicate using RS485 communications (N485PCI2L & LANSRLU1).

Maximum 31 NS2 Control Panels per Drop Line

CONTROLLER CONFIGURATION

HONEYWELL ACCESS SYSTEMS SALES POLICY

We at Honeywell Access Systems believe that service and support play an important role in the success of our business. In order to ensure our customers receive both accurate and reliable information, your call may be monitored by Honeywell's management team. This is another way in which Honeywell Access Systems is continuing to provide the highest level of service and support in the industry.

1. Ordering

Customer may order Products from Honeywell by faxing Honeywell's Customer Service department and by issuing a purchase order specifying the quantity of products, the desired delivery date, shipping method, and the locations to which Product should be shipped.

Honeywell reserves the right to refuse any purchase order, and is not bound to honor it, unless a paper copy via fax or mail has been received at Honeywell's Oak Creek (Milwaukee), Wisconsin headquarters.

Orders received without a requested shipping date will be scheduled for shipment according to current Honeywell production schedules. Payments are accepted in U.S. currency only. Exceptions to this policy are handled on an individual basis. Prices are subject to change without notice. Minimum order amount accepted by Honeywell is \$100.00 net. Cancelled orders are subject to a minimum 15% cancellation charge if canceled within forty-five (45) days of placing the respective purchase order. Special (spec) or custom (cust) order items that cannot be cancelled with our suppliers are subject to a 100% cancellation charge.

A minimum order of 25 is required on stock card items. Call for a quotation and minimum requirements on non-stock cards (i.e. custom/special cards).

2. Delivery and Shipping

Orders will be assigned estimated ship dates based on product availability and the date Honeywell receives and accepts the order. Honeywell shall make every reasonable effort to meet delivery date(s) quoted or acknowledged. However, Honeywell will not be liable for its failure to meet such dates. Orders which cannot be shipped for more than 90 days may be canceled.

Honeywell shall not be liable for loss, damage, detention, or delay due to war, riots, civil insurrection or acts of the common enemy, fire, flood, strikes, or other labor difficulty, acts of civil or military authority including governmental laws, orders, priorities or regulations, acts of the Customer, embargo, wrecks, or delays in transportation, inability to obtain necessary labor, materials or manufacturing facilities from unusual sources, or other causes beyond the reasonable control of Honeywell. In case of delay in performance due to any such cause, the date of delivery or time for completion will be adjusted to reflect the

actual length of time as may be necessary to properly reflect the delay.

The Customer's receipt of Equipment shall constitute a waiver on any claims for delay.

In the event that Customer requests a guaranteed ship date Honeywell reserves the right to add to the purchase price, subject to Customer's approval, expenses which increase the costs of production, (i.e. freight charges, overtime expenses, etc). Honeywell reserves the right to make shipments of complete orders in advance of the ship dates specified and partial orders with prior approval from Customer. Claims for delays in shipment, shortage and damage must be initiated by Customer with the carrier.

3. Freight and Title

Title and risk of loss or damage to the Equipment shall pass to the Customer upon tender of delivery FOB at Honeywell's facility, except that a security interest in the Equipment or any replacement shall remain with Honeywell, regardless of mode of attachment to realty or other property, until full payment has been made therefore.

Customer shall do all things and acts necessary to perfect and maintain said security interest and shall protect Honeywell's interest by adequately insuring the Equipment against loss or damage from any cause and Honeywell shall be named as an additional insurer. Customer shall provide Honeywell with certificates of insurance coverage.

Claims for shortages and damages enroute must be promptly filed with the delivery carrier by the Customer.

Shipments will be routed by the most expeditious and reasonable method. Freight charges will be prepaid and added to the invoice. Use of carriers other than Honeywell's preferred carrier(s) may be subject to additional handling charges to the Customer.

All freight charges, including warranty shipments, are the Customer's responsibility.

4. Payment Terms

Standard domestic terms are 2% discount if paid within ten (10) days, or NET thirty (30) days. Terms for international sales may require Letters of Credit rather than open credit terms subject to Credit Department approval. All claims and/or disputes concerning billing issues and discrepancies must be submitted to Honeywell for consideration within thirty (30) days from invoice date. Otherwise, all billings are considered final after 30 days.

Unless otherwise agreed to in writing by Honeywell, Customer shall pay all invoices issued within thirty (30) days from the date of invoice. Orders exceeding \$50,000 and/or orders involving custom products, will generally require progress payment terms

due with an order at the time of shipment, and net 30 days after shipment. Honeywell reserves the right to change the credit terms at any time, when, in Honeywell's opinion, Customer's financial condition or previous payment record so warrants.

Interest shall accrue on all past due invoices at the maximum legal rate or 1.5% per month (18% APR) whichever is lower. Honeywell may place Customer on a C.O.D. basis in the event that Customer's account becomes delinquent or Honeywell becomes insecure about Customer's financial capabilities. In the event it becomes necessary for Honeywell to incur collection costs or initiate suit to collect any amount under this agreement, or any portion thereof, the Customer promises to pay such additional collection costs, charges, and expenses including reasonable attorney's fees if the account is placed in the hands of an attorney for collection.

5. Taxes

The prices do not include any Federal, State, or local property, license, privilege, sales, use, excise, gross receipts, or other like taxes which may be now or hereafter applicable to, measured by, or imposed upon or with respect to this transaction, the Equipment, its sale, its value or its use, or any services performed in connection therewith. Such taxes will be itemized separately to the Customer, who shall make prompt payment to Honeywell.

Honeywell will accept a valid exemption certificate from the Customer, if applicable. If an exemption certificate previously accepted by Honeywell is not recognized by the governmental taxing authority involved, Customer agrees to promptly reimburse Honeywell for any taxes covered by such exemption certificate which Honeywell is required to pay.

6. Claims

Claims for price adjustment must be submitted to Honeywell Customer Service Department within thirty (30) days from date of invoice in question. Claims for shortages, or incorrectly filled orders, must be made within ten (10) days after receipt of shipment.

7. Credits

Credits will be issued for material that is re-sellable, brand new, and unopened in its original box. Orders that are accepted for return within forty-five (45) days after shipment are subject to a minimum 15% restocking charge. Orders that are accepted for return between forty-five (45) and ninety (90) days after shipment are subject to a minimum 40% restocking charge.

No returns will be accepted for credit later than ninety (90) days after shipment.

8. Limits of Liability

Honeywell's sole Liability and the Customer's exclusive remedy for damages regardless of theory, shall not exceed the cost of correcting the defect and in no event shall such liability be greater than the purchase price paid by the Customer for the defective equipment. Honeywell SHALL NOT UNDER ANY

CIRCUMSTANCES BE LIABLE FOR SPECIAL, INDIRECT NOR CONSEQUENTIAL DAMAGES OF ANY KIND.

Customer shall hold harmless and indemnify Honeywell from and against all claims, demands, losses and liability arising out of damage to property or injury to persons occasioned by or in connection with the acts or omissions of Customer and its agents and employees, and from and against all claims, demands, losses and liability for costs of fees, including reasonable attorneys' fees, in connection therewith.

9. Product Design

Honeywell reserves the right to discontinue the manufacturing of any of the equipment, to make changes in their design or to add improvements to the equipment at any time without prior notice to the Customer, provided that Honeywell shall not be required hereby to change equipment previously sold. No part of this paragraph will be deemed to affect the obligation of Honeywell to fill orders previously accepted.

10. Software License, Warranty and Service

DEFINITIONS

"Licensed Program" means a software program and any updated, improved or otherwise modified version ("Release") of such a program and any related materials, in machine readable and/or printed form, furnished to Licensee by or on behalf of Honeywell, including any materials provided under any Honeywell software service, and any full or partial copies of any of the foregoing. License Programs include, but are not limited to, Operating Systems, Communications Software, Query Languages, Honeywell Programs or any applications packages obtained from Honeywell.

"Honeywell Program" means a Licensed Program owned by Honeywell, or for which Honeywell has the independent ability, including the right to use source code, to provide maintenance and support.

"Designated Equipment" means, with respect to each Licensed Program, the specific computer and peripherals (hereinafter called "Hardware System") or with respect to any subsequent releases, the particular Hardware System for which Licensee has paid Honeywell's applicable fee.

LICENSE GRANT AND SCOPE

Subject to the terms above, Honeywell hereby grants to Licensee and its third-party customer, and Licensee accepts a nontransferable, nonexclusive license to resell each Licensed Program only on the Designated Equipment for the Release in question. Licensee expressly understands that a Licensed Program cannot be transferred to, or used in connection with, any Hardware System not licensed by Honeywell to operate the Release in question.

Upon request, Honeywell may license Licensee, for an additional fee, to use some of the Licensed Programs in connection with a Hardware System which Honeywell determines to be compatible

after conducting an inspection at Honeywell's usual charges for such inspection. Releases furnished after such inspections are not warranted to work with future software revisions or to the Hardware System if modified after Honeywell inspection.

Licensee may obtain Releases beyond those originally furnished for particular designated equipment by either entering into a software support contract covering the Licensed Program and Designated Equipment, or placing a purchase order which identifies the Licensed Program, release number and Designated Equipment (by Hardware System identification number), and in either case, paying Honeywell's applicable fee.

ASSIGNMENT/TRANSFER

Neither the licenses granted hereunder nor the Licensed Programs may be assigned or transferred without the prior written consent of Honeywell, and any such attempt will void the license. If Licensee desires to transfer the Designated Equipment to another third party for continuing use by such party, Honeywell agrees, upon Licensee's request and subject to Honeywell's reasonable approval, to offer to enter into a standard Honeywell license agreement covering the Licensed Program(s), Licensee may transfer the Licensed Program(s) to such third party on payment of an additional fee of \$100 to Honeywell. In the absence of such an agreement, if Licensee transfers the Designated Equipment, Licensee shall promptly return to Honeywell the Licensed Programs, including all copies which contain any portion of a Licensed Program and external security devices.

MODIFICATIONS/COPIES

Honeywell grants to Licensee the right to modify and/or copy any Licensed Program in machine readable form as necessary for backup, archival or modification purposes only. Upon termination of the license for such Licensed Program, the license to use any modified License Programs is also terminated. Licensed Programs in printed form shall not be copied in whole or in part, but additional copies may be obtained from Honeywell at its then standard charges.

Licensee shall not reverse assemble or reverse compile any Licensed Program.

Licensee agrees that any copyright notices and/or proprietary notices appearing on any Licensed Programs will be reproduced and included on and in any modifications and copies, in whole or in part, of Licensed Programs.

OWNERSHIP

Honeywell either owns or has the right to license Licensed Programs. As between Honeywell and Licensee, Licensed Programs and all copies thereof, in whole or in part, including all portions of Licensed Programs contained in modifications, shall remain the sole property of Honeywell.

PROTECTION OF LICENSED PROGRAMS

Licensee agrees that Licensee and its employees will not provide or otherwise make available any Licensed Program or portion thereof in any form (including derivative programs) to any third party and will keep such materials in confidence. Licensee further agrees to limit availability of License Program only to those employees who need to use such Licensed Programs as permitted by this agreement.

SERVICES FOR HONEYWELL SOFTWARE PROGRAMS

With respect to each Honeywell Program included with a Honeywell system, Honeywell will furnish, without additional charge, the services described below for a period of 15 months from the date of shipment, or 12 months from the date of installation, whichever occurs first.

THE SERVICES ARE:

Upon Licensee's written request and furnishing Honeywell with all requested information, Honeywell will provide services for correcting or working around variances between the function of a Licensed Program and Honeywell's published user documentation, provided the variances occur on an unmodified version of Honeywell's most current Release of Licensed Program or the prior major Release made available by Honeywell, and is used on Designated Equipment in normal operating condition and with operating software and environment as specified by Honeywell. Honeywell will use all reasonable effort to correct or work around the variances described above, but does not represent or warrant that such variances will be corrected or worked around. If a problem is determined by Honeywell to be of Licensee origin, Licensee will pay Honeywell's standard charges for work performed in responding to the problem.

Any new releases of updates of the Licensed Program generally released by Honeywell to other Licensees at no charge.

The features of new software releases may require hardware upgrades of the processor, memory, hard drive, or other components for proper operation. Honeywell will specify all hardware requirements for new releases. It is the responsibility of the Customer to procure and install any required hardware upgrades at his own cost.

Any updates of applicable user manuals and new user manuals and guides generally released by Honeywell to other Licensees at no charge.

Consultation by telephone, during normal business hours, to assist Licensee with the application of Licensed Programs.

Honeywell's technical bulletins and alert bulletins as appropriate.

SERVICES FOR NON-HONEYWELL SOFTWARE PROGRAMS

With respect to each Licensed Program other than Honeywell Programs, Honeywell will use all reasonable effort (any litigation will be at Honeywell's option) to require all suppliers of such Programs to provide the services which they have contracted to perform for Honeywell's Customers and which Honeywell has formally announced will be available at no charge, but Honeywell will have no other responsibility with respect to non-Honeywell programs.

TERM AND TERMINATION

Each License granted herein shall remain in force until Licensee discontinues use of the Licensed Program on the Designated Equipment, or until Honeywell terminates this agreement, or the License for such Licensed Program. Honeywell may terminate this agreement or any license hereunder: effective immediately upon notice if Licensee provides or otherwise makes available to any third party any Licensed Program or portion thereof, or upon thirty days notice if Licensee attempts to use any Licensed Program or modification thereof on equipment other than the Designated Equipment for the Release in question, or attempts to transfer any license or assign this agreement without the prior written consent of Honeywell, or fails to perform any other material obligation under this agreement, and does not cure such breach within such period. Immediately upon termination, Licensee shall return to Honeywell the Licensed Programs and all copies thereof, provided that Licensee may remove from such copies any modifications made by Licensee.

LIMITED SOFTWARE WARRANTY

All software is provided on an "as is" basis without warranty. Neither Honeywell nor its subcontractors or suppliers grant any warranty with respect to any Licensed Program or services furnished hereunder, and no warranties of any kind, whether written, oral, implied or statutory, including warranties of merchantability or fitness for a particular purpose, shall apply.

UPGRADES

Upgrades for all Honeywell software are available through Honeywell's Customer Service Department.

WARRANTY AND MAINTENANCE AGREEMENT (HOST SYSTEMS)

1. Honeywell provides warranty and maintenance for third party computer hardware and Honeywell software for 12 months from date of installation.
2. Limited assistance on third party computer hardware and software (including operating environment) supplied by Customer is available from Honeywell on a time and material basis.
3. Standard telephone assistance (M-F, 7AM – 7PM Central Time) is included for the first year in the system price. Additional software support services are available for a fee for the first and subsequent years.

11. Export

Products produced and sold by Honeywell are subject to either general or validated license controls under the United States

export administration regulations. Export of this product without proper export license is prohibited by law.

For further information on requirements regarding the export of Honeywell's products, you may contact the U.S. Department of Commerce International Trade Administration, Washington, DC, 20230, or Honeywell at (414) 766-1700.

12. Warranty

Honeywell warrants its material and workmanship free from defects for a period of one (1) year from the date of original shipment to Customer. The warranty on terminals, printers, communications material and upgrade kits is ninety (90) days from the date of original shipment. Satisfaction of this warranty shall be limited to repair or replacement of material that is defective or becomes defective under normal use.

Return/Repairs: Defective warranty material must be returned to Honeywell's factory for repair or replacement. At Honeywell's discretion, the material will be repaired and returned or replaced within five business days. If defective warranty material is returned within ninety (90) days of original shipment, and is replaced, it will be replaced with new material. If defective warranty material is returned more than ninety (90) days after shipment, Honeywell, at its discretion, will replace with either new or repaired material. Special ordered equipment that must be returned to the vendor for repair may take longer.

Advancements: The prompt replacement of damaged or defective material prior to its return. Honeywell Access will invoice the customer for replacement material and subsequently issue credit upon receipt of the returned material. The customer must issue Honeywell Access a purchase order prior to shipment of replacement material. There will be an additional advancement fee for this service for which the customer will be responsible.

Test Fees: Any product received by Honeywell Access Systems that is tested and determined to be in good working condition, will be returned to the customer along with a testing fee that will be billed to the customer's account. The purchase order number that was supplied to Honeywell Access Systems for the advance replacement equipment will be used for the billing of this testing fee. The testing fee will not be refundable. In addition, the customer will not receive the credit for the return of the defective equipment and will be expected to pay for the replacement equipment that was shipped as an advancement.

PC On-site Warranty: All PC systems that are sold include a one (1) year on-site warranty for hardware related issues. Honeywell Access Systems guarantees next business day on site service for any problems brought to our attention prior to 3:00 p.m. CST. Honeywell Access Systems and/or our vendor will be required to provide troubleshooting over the phone with either customer or end-user to determine the extent of the problems. A purchase order must be supplied to the Honeywell Access Systems Customer Service Rep during notification of the problem

to ensure that any defective or unused repair parts are promptly returned to the vendor. In the event that the parts are not returned to the vendor, the customer will be billed for the unreturned items on the provided purchase order number. Any abuse of or power surges to the equipment will void the warranty. (Please see below for further definition of non-warranty issues.) The purchase order number will be used, therefore, to bill the customer for the non-warranty repair of the equipment.

Extended PC System Warranties: Additional maintenance agreements can be purchased to extend the warranty for our PC systems in time increments of one (1) year. These additional extended warranties will not exceed a total of two (2) additional years from the expiration of Honeywell's normal one (1) year warranty. These additional warranties can be purchased from our Sales Department. Please contact your Honeywell Access Sales Rep for more information on these additional warranties. Extended warranties for PC systems must be purchased during the initial warranty period only.

Extended Warranties: HID has extended its warranty to lifetime coverage on all of its products except ISOPROX and DUOPROX cards. Honeywell will honor HID's warranty for all new items purchased on or after January 1, 1997.

Freight charges for warranty material is the responsibility of the Customer.

13. Non-Warranty

Honeywell's warranty shall not extend to any material which is determined to be defective as a result of misuse, improper storage, incorrect installation, operation or maintenance, alteration, modification, accident, acts of God, natural disaster, or unusual deterioration of the material due to physical environments in excess of the limits set forth in material manuals. (Refer to section above on Warranty.)

Return/Repair: Upon the receipt of defective or damaged material at Honeywell Access Systems, new or repaired replacement material will be shipped to the customer. The customer will be charged for repair or replacement material. Customer is required to issue a purchase order and is responsible for all freight charges.

Advancements: The prompt replacement of damaged or defective material prior to its return. Customers must issue a purchase order prior to shipment of replacement material. Customers will be invoiced a transaction fee for this advanced replacement service and for all repair or replacement costs, including freight charges.

Test Fees: Any product received by Honeywell Access Systems that is tested and determined in good working condition, will be returned to the customer along with a testing fee that will be billed to the customer's account. This testing fee will not be refundable.

14. Return Merchandise Authorization (RMA)

No material will be accepted for return to Honeywell's warehouse or factory without an RMA number, also referred to as a Return Authorization Credit (RAC) number. Customer will need to provide the following information to obtain a RMA number:

- a. Model number and serial number of the unit.
- b. If available, the shipment date of the unit (from packing list).
- c. A new purchase order number.
- d. Symptoms of the defective unit.
- e. Technical call reference number (for products in warranty).
- f. Method of shipment.
- g. Type of RMA required (advance replacement, repair/return, return only for credit or DOA)

Upon receipt of a Customer RMA request for either credit or repair of material, Honeywell agrees to either issue an RMA number or, per written Customer request, provide Customer with a written explanation for its refusal to issue the RMA within thirty (30) days of the request date. Unauthorized returns will be refused and returned to the shipper at the Customer's expense. An RMA number is valid for a period of ninety (90) days from the date of issue. After ninety (90) days, the RMA number will be voided. An RMA number will not be issued for special order or custom material, except for warranty repair claims.

15. Use of Trademarks

During the term of this Agreement or any extension thereof, Customer may use the tradename of Honeywell or any of Honeywell's trademarks, insignias, logos, or proprietary marks in connection with Customer's sales, advertisements, and promotions of the Products. Customer acknowledges that these trademarks and logos are valuable assets of Honeywell and Customer's use of such proprietary marks shall be in accordance with Honeywell's direction and policies.

Customer specifically disclaims any right in any of the proprietary marks and shall not use the proprietary marks as part of the business name of Customer.

16. Promotional Expenses

Honeywell will furnish to Customer, at no cost, reasonable quantities of catalogs and other sales promotional literature regarding the Products. See last page for a listing of available promotional pieces. At the request of Customer, Honeywell will provide technical and/or sales training seminars for Customer's personnel, provided that such seminars can be scheduled within the time and travel schedules of Honeywell's personnel. Consult factory for seminar and training fees.

17. Federal Communications Commission (FCC) Registration

Honeywell warrants that each of the products is registered under and complies with Part 68 of the Federal Communications Commission's Rules and Regulations, including, but not limited to, all labeling and customer instruction requirements.

18. Infringement

In the event Customer received a claim that the Product or any part thereof infringes upon the patent, copyright, trademark or proprietary rights of others, Customer shall immediately notify Honeywell in writing of all such claims. Honeywell shall defend or settle such claims, and exercise its best efforts to procure for Customer the right to use the Products or modify the products to avoid infringement. Customer shall cooperate in the defense of any such claims as reasonably requested by Honeywell. Honeywell will indemnify and hold Customer harmless from any costs or damages resulting from such claims including reasonable attorney's fees. However, Honeywell shall have no liability or any claim based upon the combination with, operation of, or use of any Product not supplied by Honeywell or based upon alteration of the product by someone other than Honeywell.

19. Confidentiality

All software, drawings, diagrams, specifications, catalogs, literature, manuals and other materials furnished by Honeywell in relation to the design, use and service of the Products shall remain confidential and shall constitute proprietary rights of Honeywell and Customer agrees to treat such information as confidential. Customer shall acquire no rights in the design of the Products or the related materials except to use such information solely for the purpose of and only during the time it sells the Products. Customer shall not copy the design of any of the Products or use or cause to be used any Product design or related materials for its own benefit or for the benefit of any other party. The covenants contained in this section shall remain effective throughout the term of the Agreement and thereafter unless specifically waived by Honeywell in writing.

20. Relationship of Parties

The Agreement does not in any way create the relationship of joint venture, partnership, or principal and agent between Honeywell and Customer. Neither party shall have the power or ability to pledge the credit of the other nor to bind the other or to contract in the name of or create a liability against the other in any way for any purpose.

21. Non-Assignability

Neither party shall assign this agreement or its rights and obligations hereunder except with the prior written consent of the other party, which shall not be unreasonably withheld or delayed. Any unauthorized transfer or attempt to transfer or assign shall automatically terminate this Agreement.

22. General Provisions

- A. Governing Law – This transaction shall be governed and construed in accordance with the laws of the State of Wisconsin, USA.
- B. Remedies: Nonexclusive—No remedy conferred by any specific provision of these terms is intended to be exclusive of any other remedy and each and every remedy shall be accumulative and shall be in addition to every other remedy given here under or now or hereinafter existing in law, or in equity, or by statute, or by otherwise. The election of one or more remedies by either party shall not constitute a waiver of the right to pursue other available remedies.
- C. Enforcement of Agreement – In the event of litigation relating to this transaction, the prevailing party shall be entitled to recover its attorney's fees associated with that litigation plus prejudgment interest at the legal rate computed from the date of the filing of such litigation.

23. Conflicting Terms

Honeywell rejects any terms or conditions stated by Customer or contained in Customer's purchase documents or correspondence which are in addition to, conflict with or limit the terms and condition herein. Customer's execution or other acceptance of this proposal or its acceptance of delivery of all or part of the goods to be delivered hereunder shall constitute Customer's acceptance of the terms and conditions herein and shall be deemed to exclude any additional, conflicting or limiting terms stated by Customer or contained in Customer's purchase documents or correspondence.

24. Fire Safety and Liability Notice

Honeywell hereby notifies installer that card readers should never be connected to any critical entry, exit door, barrier, elevator or gate without providing customers with an alternative exit in accordance with all fire and life safety codes pertinent to the installation. These fire and safety codes vary from city to city and approval from local fire officials must be obtained whenever using an electronic product to control a door or other barrier. Use of egress buttons, for example, may be illegal in some cities. In most applications, single action exit without prior knowledge of what to do is a life safety requirement. (Always make certain that any required approvals are obtained in writing. Do not accept verbal approvals, as they are not valid.) Honeywell also never recommends using the N-1000 or related products for use as a primary warning or monitoring system. Primary warning or monitoring systems should always meet local fire and safety code requirements. The installer must also test the system on a regular basis by instructing the end user in appropriate daily testing procedures. Failure to test a system regularly could make installer liable for damage to end user if a problem occurs.
